Legislative Counsel's Digest:

Sections 2-18 of this bill authorize the Office of Economic Development to approve applications for partial abatements of certain taxes and the issuance of transferable tax credits submitted by the lead participant engaged in a qualified project with other participants for a common purpose or business endeavor and which is located within the geographic boundaries of a single project site in this State. **Section 11** authorizes the lead participant in a project to, on behalf of the project, apply to the Office for these economic development incentives. **Section 12** requires the Office to approve such an application for a qualified project if, in addition to certain other requirements: (1) the project would promote the economic development of this State and aid the implementation of the State Plan for Economic Development; (2) the participants in the project agree collectively to make a total new capital investment in this State of at least \$1 billion during the 10-year period immediately following approval of the application; and (3) at least 50 percent of the employees engaged in the construction of the project and 50 percent of the employees employed at the project are residents of Nevada. **Section 12** further provides that any action by the Office concerning an application must be taken at a public meeting.

Upon approval of an application, **section 13** requires the Office to issue to the lead participant in the qualified project a certificate of eligibility for transferable tax credits. **Section 13** provides that a project is eligible for transferable tax credits in the amount of \$9,500 for each qualified employee employed by the participants in the project. **Section 13** also sets forth the criteria for determining whether an employee is a qualified employee. **Section 14** provides that: (1) the amount of transferable tax credits which may be approved in any fiscal year must not exceed \$7.6 million; and (2) the total amount of transferable tax credits which may be approved pursuant to this bill must not exceed \$38,000,000. **Section 14** also

prohibits the Office from approving any applications for transferable tax credits for any fiscal year beginning on or after July 1, 2025.

Section 11 provides that the transferable tax credits may be applied to: (1) the excise tax on banks and payroll taxes imposed by chapters 363A and 363B of NRS; (2) the gaming license fees imposed by the provisions of NRS 463.370; (3) the general tax on insurance premiums imposed by chapter 680B of NRS; or (4) any combination of such taxes and fees. Additionally, **section 11** requires that the lead participant in a qualified project annually provide the Office with an audit of the qualified project that is certified by an independent certified public accountant in this State who is approved by the Office.

If the Office approves an application, **section 15** of this bill provides that the lead participant in the qualified project is entitled to a partial abatement of property taxes and employer excise taxes for a period of not more than 10 years after the date on which the partial abatement becomes effective and in an amount equal to 75 percent of the property taxes and employer excise taxes that would otherwise be owed for the qualified project. Additionally, **section 15** provides that the lead participant is entitled to the partial abatement of certain local sales and use taxes for a period of not more than 15 years and in an amount equal to those local sales and use taxes that would otherwise be owed in the county in which the qualified project is located. Finally, **section 15** authorizes the Executive Director of the Office to require, as a condition of the partial abatement, that the lead participant pay all or a portion of the abated taxes into a trust fund in the State Treasury until part or all of the requirements for the partial abatement have been met. If the requirements for the partial abatement are met, the abated taxes paid into the trust fund, including the interest and income earned on that money, must be returned to the lead participant. If the requirements for the partial abatement are not met, the money in the escrow account must be transferred to the entity that would have received the money if the partial abatement had not been granted, as determined by the Department of Taxation.

Section 16 requires the lead participant in a qualified project to repay any portion of transferable tax credits and any portion of an abatement to which the lead participant is not entitled if the Office determines that the lead participant becomes ineligible for the incentives. **Section 17** requires the Office to make and submit to the Legislature certain reports concerning any economic development incentives provided to a qualified project pursuant to **sections 2-17**. **Section 17** also requires the Office to, upon request, make available to the Legislature any information concerning a qualified project or a participant in a qualified project.

Existing law authorizes local governments to undertake various infrastructure projects and provides a variety of mechanisms through which a local government may finance such projects. (See, e.g., chapters 271, 271A, 278C, 318 and 354 of NRS) **Sections 19-29** of this bill establish provisions pursuant to which a local government that receives notice from the Office that a qualified project will be located within the jurisdiction of the local government and that determines there is a need to finance infrastructure projects to support the development of the qualified project may submit to the Office an economic development financing proposal pursuant to which the infrastructure projects would be financed from the proceeds of bonds, securities or other indebtedness issued by the State of Nevada. **Section 27** provides that a proposal may include provisions for financing one or more projects and must include the creation of one or more tax increment areas or special districts and the pledge of revenues from such areas or districts for the repayment of any bonds issued by the State of Nevada to finance the projects. **Section 28** requires the Office to review each proposal and approve, approve and modify or reject each proposal within 45 days after receiving the proposal. **Section 28** requires the Office to obtain the approval of the Legislature or the Interim Finance Committee of any such proposal which is submitted on or after July 1, 2017. **Section 28** sets forth

criteria which must be met before the Office may approve a proposal. **Section 28** provides that any economic development financing agreement approved by the Office must include provisions requiring the Office to enter into an agreement with the local government pursuant to which the Office will administer any tax increment areas or special districts created by the local government pursuant to the economic development financing agreement. Additionally, **section 28** requires: (1) any securities issued pursuant to an economic development financing agreement must be made payable from taxes levied by the local government against all taxable property within the jurisdiction of the local government; and (2) the local government to issue general obligation securities that are payable from such taxes. If the Office approves an economic development financing agreement, **section 29**: (1) requires the State Board of Finance to issue general obligation bonds of the State of Nevada to finance the infrastructure projects identified in the agreement; and (2) provides that the proceeds of such bonds must be allocated to the Office for the purpose of providing financing for the infrastructure projects identified in the agreement. **Section 29** prohibits the State Board of Finance from issuing bonds pursuant to an economic development financing agreement if the total amount of outstanding bonds issued pursuant to such agreements would exceed \$175,000,000.

Existing law authorizes the governing body of any county, city or unincorporated town to create an improvement district for the acquisition, operation and maintenance of certain projects, and to finance the cost of any project through the issuance of bonds and the levy of assessments upon property in the improvement district. (NRS 271.265, 271.270, 271.325) **Sections 36, 38 and 39** of this bill authorize the governing body of a county, city or unincorporated town in which a qualified project is located to create an improvement district for certain electrical projects and fire protection projects.

Existing law authorizes the governing body of a county or city in which a qualified project is or is expected to be located to: (1) create an economic diversification district that includes within its boundaries the qualified project; and (2) pledge an amount equal to the proceeds of all sales and use taxes imposed on or owed by each participant in the qualified project with regard to tangible personal property purchased in the county or city for use in the district, or stored, used or otherwise consumed in the district by a participant, during a fiscal year, other than any local sales and use taxes for which an abatement is received. (Chapter 271B of NRS) **Sections 42-46** of this bill authorize the governing body of a county or city to create an economic diversification district and pledge sales and use taxes for certain purposes related to a qualified project that qualifies for the economic development incentives set forth in this bill. **Sections 45 and 46** of this bill provide that if the Executive Director of the Office of Economic Development requires the lead participant to pay all or a portion of the abated taxes into a trust fund in the State Treasury until certain requirements are met: (1) the pledge of money must be conditioned upon the lead participant qualifying for a return of the money paid into the trust fund; (2) money subject to the conditional pledge must be deposited into the trust fund; and (3) the pledged money may not be disbursed until the lead participant qualifies for the return of the money paid into the trust fund.

Existing law requires the Public Utilities Commission of Nevada to adopt regulations authorizing a public utility which purchases natural gas for resale to expand its infrastructure in a manner consistent with a program of economic development. The program of economic development must be proposed by the public utility and approved by the Commission. The required regulations must prescribe procedures for approval of the expansion and must ensure the recovery by the public utility of all prudent and reasonable costs associated with the expansion. (NRS 704.9925) For these purposes, **section 41** of this bill provides that an expansion of infrastructure by such a public utility as necessary to provide natural gas to the legal boundary of an economic diversification district constitutes a

program of economic development. **Section 41** also requires that the public utility, in accordance with the existing statute, expand its infrastructure in this manner and file an application with the Commission to establish rates to recover the costs associated with the expansion.

Under existing law a board of county commissioners may create a regional transportation commission under certain circumstances. (NRS 277A.180) Existing law authorizes a regional transportation commission to exercise the power of eminent domain, if the county or city with jurisdiction over the property approves the exercise of that power, for the acquisition, construction, repair or maintenance of public roads, or for any other purpose related to public mass transportation. (NRS 277A.250) **Section 47** of this bill authorizes the regional transportation commission in a county in which a qualified project is located to construct, improve, maintain and operate a project to provide freight rail service in relation to the qualified project. **Section 48** of this bill authorizes such a regional transportation commission to exercise the power of eminent domain for a purpose related to such a project if the county or city with jurisdiction over the property approves of the exercise of that power.

Existing law authorizes the governing body of a municipality to designate a tax increment area for the purpose of creating a special account for the payment of bonds or other securities issued to defray the cost of certain undertakings, including, without limitation, water projects. The designation of a tax increment area by the governing body provides for the allocation of a portion of the taxes levied upon taxable property in the tax increment area each year to pay the bond requirements of loans, money advanced to or indebtedness incurred by the municipality to finance or refinance the undertaking. (Chapter 278C of NRS) In addition to such property taxes, a portion of the sales and use taxes imposed within the tax increment area and the excise tax imposed on financial institutions and employers (the "modified business tax") located in the tax increment area may be allocated to pay the debt incurred by the municipality to finance or refinance the undertaking if the undertaking is a water project, the estimated cost of which exceeds \$50,000,000, and such financing is approved by the Interim Finance Committee. (NRS 278C.157, 278C.250) **Sections 51 and 53-59** of this bill revise these provisions to: (1) provide that, in addition to a water project, a portion of the sales and use taxes imposed within the tax increment area and the modified business tax imposed on financial institutions and employers located in the tax increment area may be allocated to pay the debt incurred by the municipality to finance or refinance an undertaking that is a rail project or a natural resources project; and (2) remove the \$50,000,000 threshold to qualify for such an allocation of those taxes and, instead, require that the project be in relation to a qualified project. **Section 60** of this bill authorizes a municipality to issue securities purchased by the state Municipal Bond Bank if the securities are issued for a purpose related to natural resources.

Existing law prescribes the procedures for applications for permits relating to water rights. (Chapter 533 of NRS) **Section 64** of this bill requires the State Engineer to expedite action on an application for a permit relating to water rights in an area in which a qualified project is located upon receipt of certain notice from the Executive Director of the Office of Economic Development. **Section 64** also provides specific procedures with respect to such an expedited application which involves a water right that lies within a basin that has certain connections to and is managed jointly with one or more other basins.

Any minor changes authorized by this subsection must be made a matter of public record at a public meeting of the governing body.

Each verification of mailing must be filed with the clerk and be retained in the records of the municipality at least until all bonds and any other securities

1 pertaining to a tax increment account have been paid in full, or any
2 claim is barred by a statute of limitations.

3 4. A verification of mailing is prima facie evidence of the
4 mailing of the notice in accordance with the requirements of this
5 section.

6 **Sec. 59.** NRS 278C.250 is hereby amended to read as follows:

7 278C.250 1. After the effective date of the ordinance adopted
8 pursuant to NRS 278C.220:

9 (a) Any taxes levied upon taxable property in the tax increment
10 area each year by or for the benefit of the State, the municipality and
11 any public body must be divided as follows:

12 (1) That portion of the taxes that would be produced by the
13 rate upon which the tax is levied each year by or for each of those
14 taxing agencies upon the total sum of the assessed value of the
15 taxable property in the tax increment area as shown upon the last
16 equalized assessment roll used in connection with the taxation of the
17 property by the taxing agency, must be allocated to and when
18 collected must be paid into the funds of the respective taxing
19 agencies as taxes by or for the taxing agencies on all other property
20 are paid.

21 (2) Except as otherwise provided in this section, the portion
22 of the taxes levied each year in excess of the amount determined
23 pursuant to subparagraph (1) must be allocated to, and when
24 collected must be paid into, the tax increment account pertaining to
25 the undertaking to pay the bond requirements of loans, money
26 advanced to, or indebtedness, whether funded, refunded, assumed or
27 otherwise, incurred by the municipality to finance or refinance, in
28 whole or in part, the undertaking. Unless the total assessed valuation
29 of the taxable property in the tax increment area exceeds the total
30 assessed value of the taxable property in the area as shown by the
31 last equalized assessment roll referred to in this subsection, all of the
32 taxes levied and collected upon the taxable property in the area must
33 be paid into the funds of the respective taxing agencies. When the
34 loans, advances and indebtedness, if any, and interest thereon, have
35 been paid, all money thereafter received from taxes upon the taxable
36 property in the tax increment area must be paid into the funds of the
37 respective taxing agencies as taxes on all other property are paid.

38 (b) If the undertaking is a ~~water project~~ *natural resources*
39 *project or a rail project* for which the municipality has received
40 approval from the Interim Finance Committee pursuant to NRS
41 278C.157, any taxes levied upon the sale or use of tangible personal
42 property in the tax increment area each year by or for the benefit of
43 the State, the municipality and any public body must be divided as
44 follows:

(1) That portion of the taxes that would be produced by the rate upon which the tax is levied each year by or for each of those taxing agencies upon the total sum of the sales and use of tangible personal property in the tax increment area in the fiscal year immediately preceding the effective date of the ordinance adopted pursuant to NRS 278C.220, must be allocated to and when collected must be paid into the funds of the respective taxing agencies as taxes by or for the taxing agencies on all other sales of tangible personal property are paid.

(2) Except as otherwise provided in this section, of the portion of the taxes levied each year in excess of the amount determined pursuant to subparagraph (1), 50 percent of that amount must be allocated to, and when collected must be paid into the tax increment account pertaining to the undertaking to pay the bond requirements of loans, money advanced to, or indebtedness, whether funded, refunded, assumed or otherwise, incurred by the municipality to finance or refinance, in whole or in part, the undertaking. The remaining 50 percent of that amount must be allocated to and when collected must be paid into the funds of the respective taxing agencies as taxes by or for the taxing agencies on all other sales of tangible personal property are paid. Unless the total amount of the taxes imposed on the sale and use of tangible personal property in the tax increment area exceeds the total amount of the taxes imposed on the sale and use of tangible personal property in the tax increment area in the fiscal year immediately preceding the effective date of the ordinance adopted pursuant to NRS 278C.220, all of the taxes levied and collected upon the sale or use of tangible personal property in the tax increment area must be paid into the funds of the respective taxing agencies. When the loans, advances and indebtedness, if any, and interest thereon, have been paid, all money thereafter received from taxes upon the sale or use of tangible personal property in the tax increment area must be paid into the funds of the respective taxing agencies as taxes on all other taxes on the sale or use of tangible personal property are paid.

(c) If the undertaking is a ~~water project~~ *natural resource project or a rail project* for which the municipality has received approval from the Interim Finance Committee pursuant to NRS 278C.157, any taxes imposed pursuant to NRS 363A.130 or 363B.110 on employers located in the tax increment area must be divided as follows:

(1) That portion of the taxes that would be produced by the rate upon which the tax is imposed each year by the Department of Taxation in the fiscal year immediately preceding the effective date of the ordinance adopted pursuant to NRS 278C.220, must be allocated to and when collected must be paid to the Department of

1 Taxation as all other taxes imposed pursuant to NRS 363A.130 and
2 363B.110 are paid.

3 (2) Except as otherwise provided in this section, of the
4 portion of the taxes imposed each year in excess of the amount
5 determined pursuant to subparagraph (1), 50 percent of that amount
6 must be allocated to, and when collected must be paid into, the tax
7 increment account pertaining to the undertaking to pay the bond
8 requirements of loans, money advanced to, or indebtedness, whether
9 funded, refunded, assumed or otherwise, incurred by the
10 municipality to finance or refinance, in whole or in part, the
11 undertaking. The remaining 50 percent of that amount must be
12 allocated to and when collected must be paid to the Department of
13 Taxation as all other taxes imposed pursuant to NRS 363A.130 and
14 363B.110 are paid. Unless the total amount of the taxes imposed
15 pursuant to NRS 363A.130 and 363B.110 on employers located in
16 the tax increment area exceeds the total amount of the taxes imposed
17 on employers located in the tax increment area in the fiscal year
18 immediately preceding the effective date of the ordinance adopted
19 pursuant to NRS 278C.220, all of the taxes imposed on employers
20 located in the tax increment area must be paid to the Department of
21 Taxation. When the loans, advances and indebtedness, if any, and
22 interest thereon, have been paid, all money thereafter received from
23 taxes imposed pursuant to NRS 363A.130 or 363B.110 on
24 employers located in the tax increment area must be paid to the
25 Department of Taxation as all other taxes imposed pursuant to NRS
26 363A.130 and 363B.110 are paid.

27 2. ~~The~~ *Except as otherwise provided in subsection 2 of*
28 *section 29 of this act, the* amount of the taxes levied each year
29 which are paid into the tax increment account pursuant to
30 subparagraph (2) of paragraph (a) of subsection 1, subparagraph (2)
31 of paragraph (b) of subsection 1 and subparagraph (2) of paragraph
32 (c) of subsection 1 must be limited by the governing body to an
33 amount not to exceed the combined total amount required for annual
34 debt service of or any outstanding advances of money or unfunded
35 costs associated with the project or projects acquired, improved or
36 equipped, or any combination thereof, as part of the undertaking.

37 3. Any revenues generated within the tax increment area in
38 excess of the amount referenced in subsection 2, if any, will be paid
39 into the funds of the respective taxing agencies in the same
40 proportion as their base amount was distributed.

41 4. Except as otherwise provided in this subsection, in any fiscal
42 year, the total revenue paid to a tax increment area pursuant to
43 subparagraph (2) of paragraph (a) of subsection 1 in combination
44 with the total revenue paid to any other tax increment areas and any
45 redevelopment agencies of a municipality, other than any revenues

1 paid to any other tax increment areas pursuant to subparagraph (2)
2 of paragraph (b) of subsection 1 and subparagraph (2) of paragraph
3 (c) of subsection 1, must not exceed:

4 (a) In a county whose population is 100,000 or more or a city
5 whose population is 150,000 or more, an amount equal to the

7 multiplied by 10 percent of the total assessed valuation of the
8 municipality.

9 (b) In a county whose population is less than 100,000 or a city
10 whose population is less than 150,000, an amount equal to the
11 combined tax rates of the taxing agencies for that fiscal year
12 multiplied by 15 percent of the total assessed valuation of the
13 municipality.

14 ➤ Notwithstanding the provisions of this subsection, if a county has
15 a population of less than 100,000 or if a city has a population of less
16 than 150,000 at the time the municipality issues securities for a tax
17 increment area pursuant to NRS 278C.280, the revenue limitation
18 set forth in paragraph (b) must remain the revenue limitation for the
19 tax increment area until such time as the securities issued for that
20 tax increment area pursuant to NRS 278C.280 have been paid in
21 full, including any securities issued to refund those securities,
22 regardless of whether the population of the municipality reaches or
23 exceeds 100,000 after the issuance of those securities.

24 5. If the revenue paid to a tax increment area must be limited
25 pursuant to paragraph (a) or (b) of subsection 4 and the municipality
26 has more than one redevelopment agency or tax increment area, or
27 one of each, the municipality shall determine the allocation to each
28 agency and area. Any revenue that would be allocated to a tax

32 amount determined pursuant to subparagraph (1) of paragraph (a) of
33 subsection 1 which is attributable to any tax rate levied by a taxing

36 repayments of the principal of, and the interest on, any bonded
37 indebtedness that was approved by a majority of the registered
38 voters within the area of the taxing agency voting upon the question,
39 must be allocated to, and when collected must be paid into, the debt
40 service fund of that taxing agency.

41 (b) In excess of any tax rate of that taxing agency applicable to
42 the last taxation of the property before the effective date of the
43 ordinance, if that additional rate was approved by a majority of the
44 registered voters within the area of the taxing agency voting upon

1 the question, must be allocated to, and when collected must be paid
2 into, the appropriate fund of that taxing agency.

3 (c) Pursuant to NRS 387.3285 or 387.3287, if that rate was
4 approved by a majority of the registered voters within the area of the
5 taxing agency voting upon the question, must be allocated to, and

12 7. The provisions of paragraph (a) of subsection 6 include,
13 without limitation, a tax rate approved for bonds of a county school
14 district issued pursuant to NRS 350.020, including, without
