THE PEOPLE OF THE STATE OF NEVADA, REPRESENTED IN
SENATE AND ASSEMBLY, DO ENACT AS FOLLOWS:

- 1 **Section 1.** NRS 338.1906 is hereby amended to read as follows:
- 2 338.1906 1. Upon request by or consultation with an officer or
- 3 employee of the state who is responsible for the budget of a department,
- 4 board, commission, agency or other entity of the state, the appropriate
- 5 energy retrofit coordinator may request the approval of the state board of
- 6 examiners to advertise a request for proposals to retrofit a building, or any
- 7 portion thereof, that is occupied by the department, board, commission,
- 8 agency or other entity, to make the use of energy in the building, or portion
- 9 thereof, more efficient.
- 10 2. Upon approval of the state board of examiners, the coordinator shall
- 11 prepare a request for proposals for the retrofitting of one or more buildings,
- 12 or any portion thereof, which includes:
- 13 (a) The name and location of the coordinator;
- 14 (b) A brief description of the requirements for the initial audit of the use
- 15 of energy and the retrofitting;

- 1 (c) Where and how specifications of the requirements for the initial
2 audit of the use of energy and the retrofitting may be obtained;
3 (d) The date and time not later than which proposals must be received
4 by the coordinator; and
5 (e) The date and time when responses will be opened.
- 6 3. The request for proposals must be published in at least one
7 newspaper of general circulation in the state.
- 8 4. After receiving the proposals but before making a decision on the
9 proposals, the coordinator shall consider:
- 10 (a) The best interests of the state;
11 (b) The experience and financial stability of the persons submitting the
12 proposals;
13 (c) Whether the proposals conform with the terms of the request for
14 proposals;
15 (d) The prices of the proposals; and
16 (e) Any other factor disclosed in the request for proposals.
- 17 5. The coordinator shall determine the relative weight of each factor
18 before a request for proposals is advertised. The weight of each factor must
19 not be disclosed before the date proposals are required to be submitted to
20 the coordinator.
- 21 6. After reviewing the proposals, if the coordinator determines that
22 sufficient energy could be saved to justify retrofitting the building or
23 buildings, or portion thereof, the coordinator shall select the best proposal
24 and request the approval of the *state* board of examiners to award the
25 contract. The request for approval must include the proposed method of
26 financing the audit and retrofit, which may include an installment contract,
27 a shared savings contract or any other contract for a reasonable financing
28 arrangement. Such a contract may commit the state to make payments
29 beyond the biennium in which the contract is executed, but the interest due
30 on any debt created pursuant to this section must be paid at least
31 semiannually, payments must be made on the principal at least annually
32 and the debt must be fully repaid on or before May 1, 2013.
- 33 7. Before approving a retrofit pursuant to this section, the state board
34 of examiners shall evaluate any projects that would utilize shared savings
35 as a method of payment or any method of financing that would commit the
36 state to make payments beyond the biennium in which the contract is
37 executed to ensure that:
- 38 (a) The amount of energy to be saved will likely justify the cost of the
39 retrofit;
40 (b) The state is likely to continue to occupy the building for the entire
41 period required to recoup the cost of the retrofit in energy savings; and
42 (c) The limitation set forth in subsection 9 will not be exceeded.
- 43 8. Upon approval of the state board of examiners, the coordinator shall
44 execute the contract and notify:
- 45 (a) The state board of examiners of the total amount of money
46 committed by the contract per year; and
47 (b) Each officer or employee who is responsible for the budget of a
48 department, board, commission, agency or other entity which occupies a

1 portion of a building that will be retrofitted of the amount of money it will
2 be required to pay annually for its portion of the retrofit.

3 9. The total amount of money committed beyond the biennium for all
4 contracts executed pursuant to this section must not exceed ~~15,000,000~~
5 ~~\$15,000,000~~ at any one time.

6 10. The legislature hereby pledges that a tax will be levied to pay the
7 principal and interest on any indebtedness resulting from a contract
8 executed pursuant to this section as they become due if the required
9 payments will not be made by the entity that executed the contract from its
10 budgeted accounts and the proceeds from any such taxes are hereby
11 specially appropriated for this purpose.

12 11. NRS 338.1385 does not apply to a project for which a request for
13 proposals is advertised and the contract is awarded pursuant to the
14 provisions of this section.

15 **Sec. 2.** There is hereby appropriated from the state general fund to the
16 State Public Works Board the sum of \$14,000,472 to support the board in
