SENATE CONCURRENT RESOLUTION—Providing that the Nevada Legislature agrees that the Senate must consist of 23 Senators and the Assembly must consist of 46 Assemblymen for the purposes of reapportionment and redistricting by the 71st session of the Nevada Legislature.

- 1 WHEREAS, The 71st session of the Nevada Legislature is required to  
2 redistrict and reapportion the senatorial districts of the Senators and the  
3 assembly districts of the Assemblymen; and  
4 WHEREAS, The Nevada Legislature recognizes that an agreement on the  
5 aggregate number of Senators and the aggregate number of Assemblymen  
6 early in the legislative session will avoid unnecessary complications caused  
7 by the proposal of a wide variety of redistricting plans based on different  
8 aggregate numbers of Senators and different aggregate numbers of  
9 Assemblymen; and  
10 WHEREAS, The Nevada Legislature recognizes that if an agreement on  
11 the aggregate number of Senators and the aggregate number of  
12 Assemblymen is not reached early in the legislative session, additional  
13 revenue and time would be needed to develop and consider a wide variety  
14 of redistricting plans based on different aggregate numbers of Senators and  
15 different aggregate numbers of Assemblymen; and  
16 WHEREAS, The Nevada Legislature, having considered the needs of the  
17 people of this state, finds advisable an increase in the aggregate number of  
18 Senators from 21 to 23 and an increase in the aggregate number of  
19 Assemblymen from 42 to 46; now, therefore, be it  
20 RESOLVED BY THE SENATE OF THE STATE OF NEVADA, THE ASSEMBLY  
21 CONCURRING, That the Nevada Legislature hereby agrees that the Senate  
22 must consist of 23 Senators and the Assembly must consist of 46  
23 Assemblymen for the purposes of reapportionment and redistricting by the  
24 71st session of the Nevada Legislature.
