Good afternoon Ladies &amp; Gentlemen of the Nevada Assembly.

My name is Bill Liedtke. My wife and I are the owners of "BnF Affordable Travel." We are a home-based business for 9 years and have been able to keep out of trouble as the principle we live by in our business is, when our transactions are completed we still should be able to become friends with the client.

But I know there are some out there and I don't want to even call them "travel agents" that have taken advantage of the public and I suppose that is why we have to have some kind of law. But no matter how many laws will be passed, it won't matter. There will still be people that get ripped off by not carefully choosing who they do business with.

There always will be people, who look for a bargain that is not real and do business with someone who is NOT a legitimate travel agent, who is NOT and will NOT register no matter what, and they sell that pie in the sky that sounds so delicious but as we all know, that pie in the sky will never come down to be theirs and they will have wasted their money and then blame all of us legitimate travel agents.

Now Assemblyman John Carpenter has listened to us travel agents and drafted a revision to "AB 627" that is "AB 343" that most of us can live with and will keep honest travel agents remain honest. But never solve all problem as there always will be people that find the way around any law. And there always will be gullible people that will buy their line.

So I hope you seriously consider Assemblyman Carpenter's proposed "AB 343". It's a good bill, but as I said no law will solve ALL problems. But some laws can put many of us Travel Agents out of business.

Nevada is a tourist State and putting us out of business would not be so good, now would it?

Thank you ladies and gentlemen for giving me the opportunity to address this Assembly.
