For AB 179

I work in an at risk high school. Over half the seniors still in high school still have not passed the Nevada High School Proficiency Exam.

Many of these students are on track to graduate, and meet the admissions requirements for college or university. The NHSPER has become a major obstacle for good students and is, literally, a major stress they do not need. If a major college or university says they meet the requirements for admission, what purpose does the proficiency exam serve in denying them a diploma and admission to college.
