COMMENTS/QUESTIONS: Dear, Moe

I really thought this tour was very informational, fun, and interesting. I think this is a really nice area to build homes for our community. I never knew how mines can make different designs in the mount. I think you did a great job explaining the sites and things we saw during the tour. How did you learn all of the that you showed us? How did you know to talk about all of the questions? I think it would look better with houses on it. And that's what I think.

THANK YOU FOR YOUR TIME

COMMENTS/QUESTIONS: ^{Retired} Thanks for the tour. I am a Forester for-
State of Michigan. I came with an open mind. I am very impressed with the site.
It could be an extension of the Conservation area. But it has been
disturbed and currently being disturbed (for over 70 years). It needs to
be reclaimed in some way. ~~this~~ ^{Develop} A ~~comprehensive~~ development would
achieve the objective of reclamation which benefits (1) Developer
(2) Future home owners and (3) General public who use their area.
Esthetically pleasing development would not deter that
aspect. Environmental assessment would answer some of
the Conservation concerns.

I live in Michigan am planning to move to Las Vegas
in the near future as my two children are practicing
medical doctors here.
