RE RED ROCK CANYON PRESERVATION (SENATE BILL 358)

The attached emails include names and addresses from southwest area residents who support SB 358. We feel it is very important to provide permanent zoning protection for the area adjacent to the Red Rock Canyon so that it cannot be developed at a density higher than one house for every two acres. This not only helps preserve the Red Rock area, but it places limitations on inappropriate leapfrog development in areas without necessary services or infrastructure.

Senator Titus. My husband and I live near the southern edge of Red Rock and are tremendously opposed to development in the area. Thank you for taking a stand against developers in this area. Please stand strong and continue in your efforts to maintain this in the pristine manner in which nature created and intended it as.
Sincerely,

Rob and Tanya Harrah

Just got the following message from Dina Titus. I will attend the meeting. For those who cannot attend the meeting and wish to support Senator Titus' bill to permanently limit development of the Red Rocks, send me an email to that effect with your name, address, and telephone number. I will present them as a package and make sure your voices are heard.
