PLAN TO DOUBLE THE CAPACITY OF NURSING PROGRAMS WITHIN THE SYSTEM

University and Community Colleges, Nevada Department of Education, and the Nevada Board of Nursing have developed a plan to double the capacity of nursing programs in the state. The plan is being developed by the Nevada Board of Nursing and the University and Community Colleges of Nevada. The plan will be presented to the Board of Education at its meeting on April 1, 2003.

Prepared by:

Nevada has a severe nursing shortage. Julie E. Johnson, PhD, RN, Director and Professor, University of Nevada Reno Orvis School of Nursing, points out that there are not enough new graduates to keep up with the demand created by the growing population.

There are many reasons for this shortage. Julie E. Johnson, PhD, RN, Director and Professor, University of Nevada Reno Orvis School of Nursing, points out that there are not enough new graduates to keep up with the demand created by the growing population. There are many reasons for this shortage.

Nevada State Board of Nursing

There are many reasons for this shortage. Julie E. Johnson, PhD, RN, Director and Professor, University of Nevada Reno Orvis School of Nursing, points out that there are not enough new graduates to keep up with the demand created by the growing population. There are many reasons for this shortage.

Vice Chancellor Academic & Student Affairs, UCCSN

This shortage has severely impacted the delivery of health care services throughout the state and threatens the state's public health. Michael Harter, PhD, Vice Dean University of Nevada Medical School, points out that some patients, elective surgeries have been postponed, and nurse staffing shortages have led to delays in the delivery of health care services. Connie Carpenter, EdD, RN, Nursing Program Director, Nevada State College, Henderson, points out that some patients, elective surgeries have been postponed, and nurse staffing shortages have led to delays in the delivery of health care services.

The High Sierra Area Health Education Center (AHEC) is a non-profit organization.

High Sierra Area Health Education Center (AHEC)

The mission of the High Sierra AHEC is to enhance access to quality health care in medically underserved areas of rural and urban northwestern Nevada by improving the quality, supply, and distribution of health care professionals. The High Sierra AHEC is committed to undertaking health workforce research and analysis that (1) supports the center's health professions training, awareness and recruitment goals, and (2) informs the public policymaking process in Nevada. The High Sierra AHEC is a community-based organization dedicated to health professions education and training. It is located in Reno, Nevada, and serves three counties in northwestern Nevada: Lander, Esmeralda, and Mineral.
