## State and Local Taxes As A Percent of Personal Income 1998-99

Slide 16 of 61

16: State and Local Taxes As A Percent of Personal Income 1998-99

### Notes:

Why do western states have higher pupil per teacher ratios and lower real growth in per pupil expenditures?

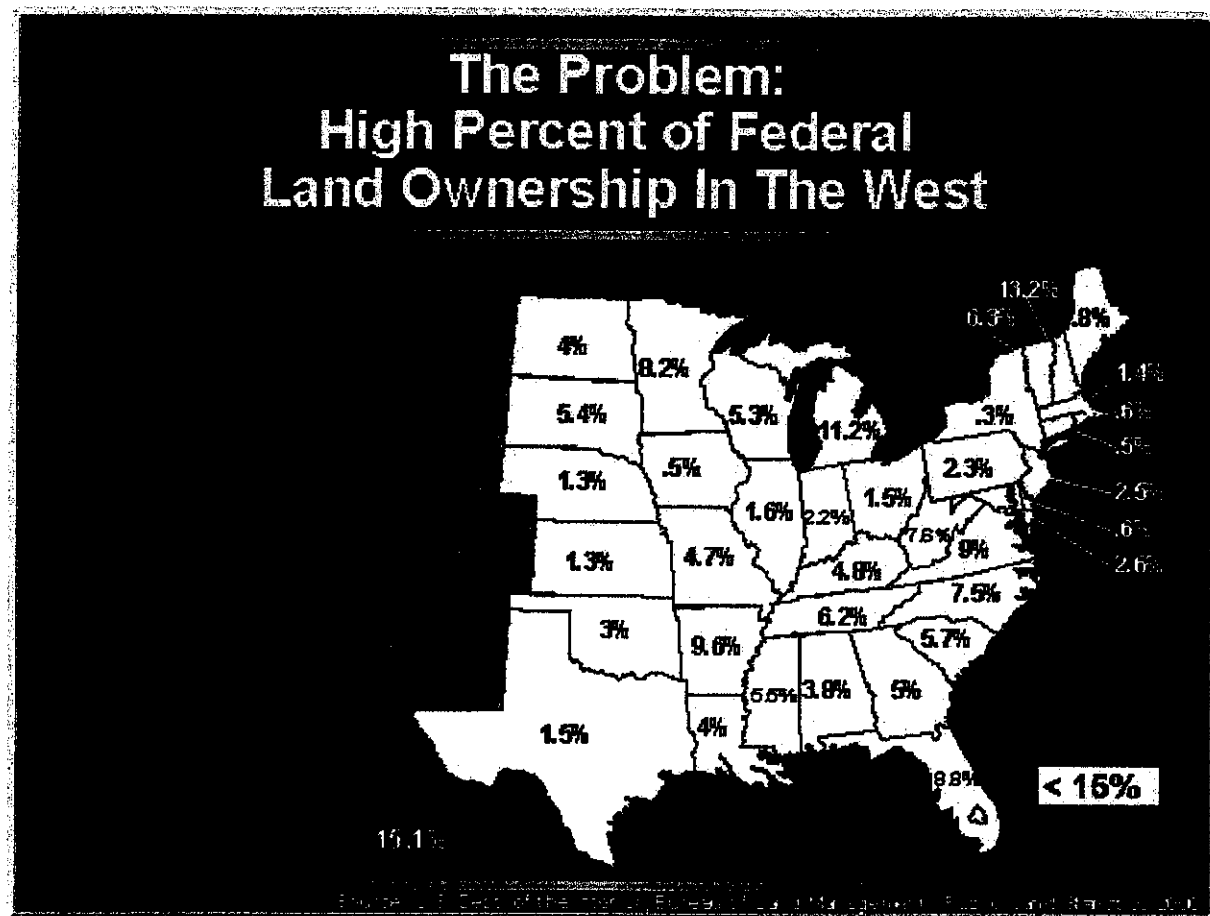

Is it because western states tax less than other states?

## The Problem:

### The Problem: High Percent of Federal Land Ownership In The West

Slide 26 of 61

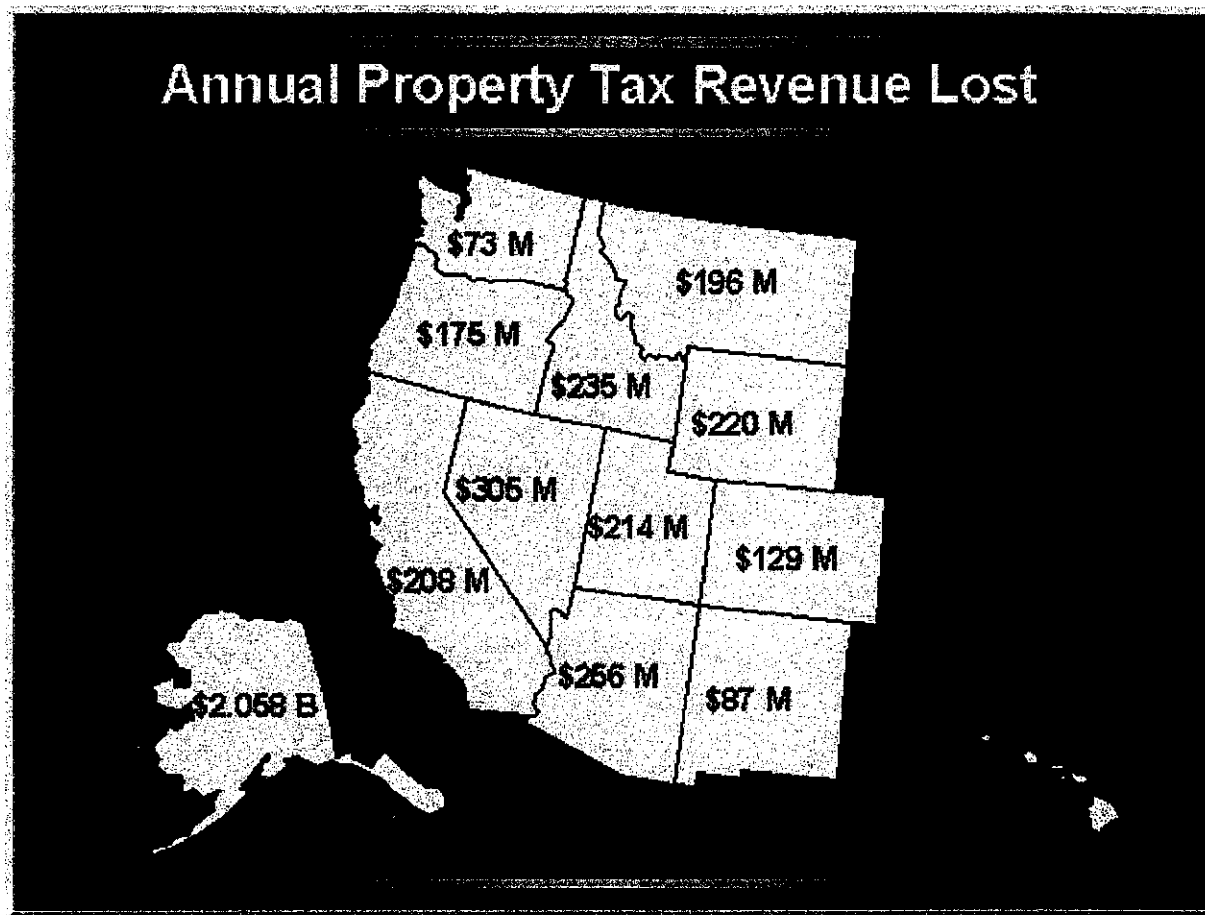

26: The Problem:

#### Notes:

The problem lies at the feet of the federal government and the enormous amount of land it owns in western states.  
No state east of an imaginary vertical line from Montana to New Mexico has more than 14% of its land federally owned.

No state west of that imaginary line has less than 27% of its land federally owned (with the exception of Hawaii).  
4 western states have more than 62% of their land federally owned (Alaska, Idaho, Nevada, & Utah).

## Annual Property Tax Revenue Lost

Slide 41 of 61

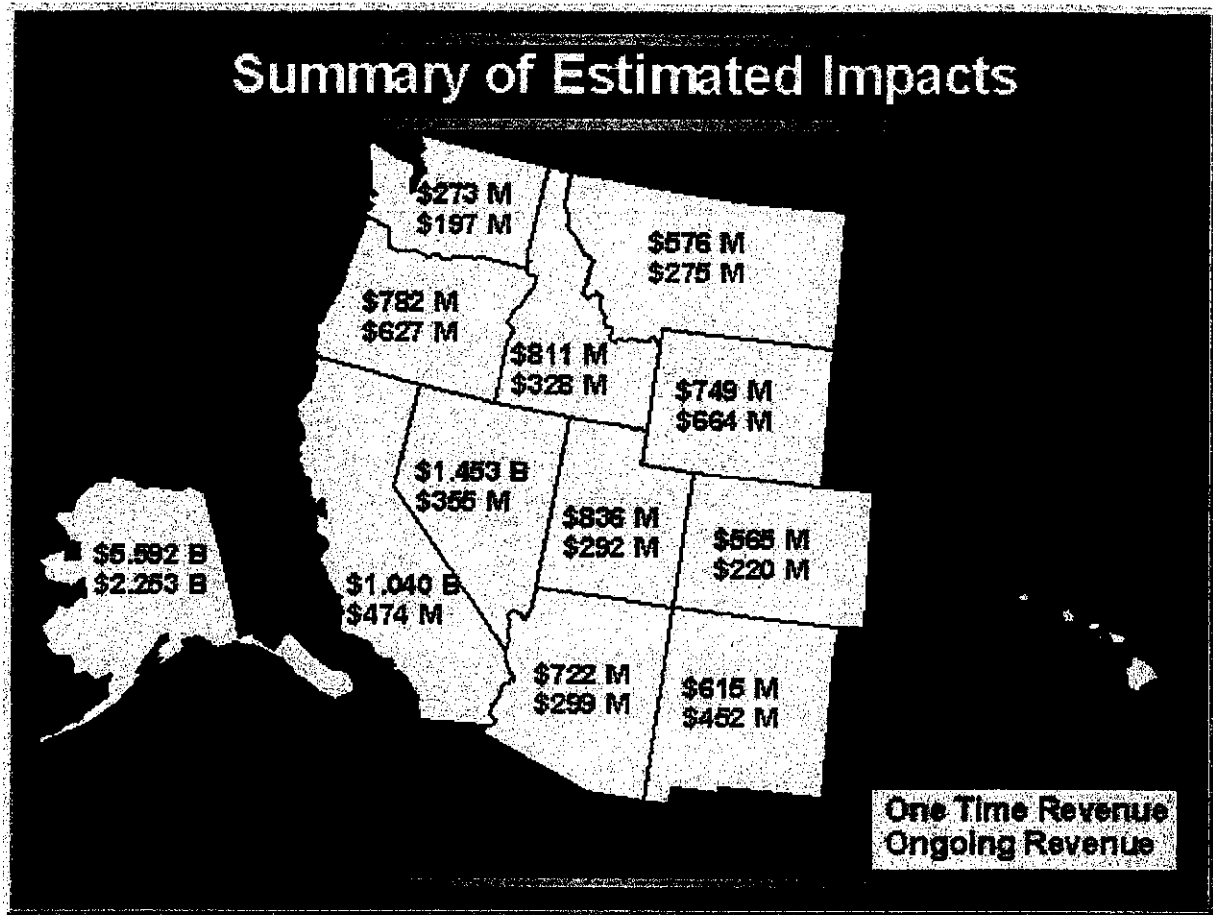

41: Annual Property Tax Revenue Lost

### Notes:

How much is each state impacted?

## Summary of Estimated Impacts

Slide 56 of 61

56: Summary of Estimated Impacts

### Notes:

How much is each state impacted overall ? (exclusive of the school trust lands consolidation problem)
