AB 193 – Amendment 1

Offered by the Nevada Department of Agriculture

Section 7(6.) Each person registered pursuant to this section shall *on a period established by regulation of the director* [~~on or before the 15th day of each month~~], file a report with the director specifying the restricted-use commercial fertilizer or agricultural minerals that the person sold during the previous *period* [~~month~~]. The Director shall provide the form for the report. The report must be filed regardless of whether the person sold any fertilizers or agricultural minerals during the previous *period* [~~month~~].

Rational: The originally proposed reporting period, has been determined to be too onerous for reporters, especially those reporting no sales. It is better to determine this reporting period during workshops while developing regulations to carry out this statute.
