PEOPLE TO PROTECT THE NEXT GENERATION

2790 Wronde Wy. #108

Reno, NV 89502

May 12, 2003

Chairman Collins, and members of the Committee on Natural Resources, Agriculture, and Mining,

My name is Juanita Cox and today I represent People to Protect the Next Generation. I have a doctors appointment this afternoon so I am writing this email as my testimony. Please include it with today's hearing against SB76.

We are very concerned with SB76 and Oppose it. We feel it is a back door for the United States to take our precious water and continue their plans for Yucca Mountain and the Nuclear Repository.

We can not understand why the Senate could pass such an atrocious bill except for the politics that has so obviously been played. It is so unfortunate for Nevadan's to endure such a taking of our water and receive in return the waste of the world.

Please in your infinite understanding and duty to protect the Citizens of the state of Nevada, **please kill SB76!**

Respectfully submitted,

Juanita Cox
