Dear Legislative,

I am writing this letter - hoping you will consider my experience and the situation of others.

I am a single parent of two. I had my first child at the age of 15. At that time I depended on aid for medical and financial support to survive. I do not receive child support. I was unable to work and finish school at the same time. I think state funding is important to single parents that don't have support from the other parent or family members. There are young single parents who try hard to succeed in life that need a little extra.

help until they can
make ends meet on
their own. I now have
a good job and just
recently had my second
child and do not depend
on aid to help me out.

If it wasn't for the
help I received when I
was younger I don't think
I would of made it
this far in life today.

Please take my letter
into consideration for all
the helpless children and
single parents who still
need a little help to
survive in the future.

Thanks,

Bobbie Wallace
