AN ACT relating to school personnel; revising the provisions governing the purchase of retirement credit for teaching in certain subject areas and schools; providing for the purchase of retirement credit for certain other licensed employees of school districts; allowing a licensed employee who is eligible for the purchase of retirement credit to receive a stipend in lieu of the retirement credit; requiring the Department of Education to make an allocation from the State Distributive School Account to provide stipends to certain educational personnel; and providing other matters properly relating thereto.

Legislative Counsel's Digest:

1 Existing law requires the boards of trustees of school districts to pay the cost of
2 retirement credits for certain licensed teachers and school psychologists. The board
3 is required to pay one-fifth of 1 year of retirement credit when the teacher or
4 psychologist meets certain conditions. (NRS 391.165)

5 This bill extends the right to receive such retirement credit to all licensed
6 employees of an “at risk” school but removes the right for licensed teachers to
7 receive such credit if they are employees of a school that has been given the
8 designation of demonstrating need for improvement. The Department of Education
9 is required to develop a formula for determining which schools are “at risk.”

10 This bill also allows a licensed employee of a school district who is qualified to
11 receive a purchase of retirement credit to receive a stipend of \$2,500 in lieu of the
12 purchase of service.

13 This bill requires the board of trustees of each school district to submit annually
14 to the Department of Education, State Board of Education, Legislative Committee
15 on Education and Legislature a report of the success of the purchase of service and
16 payment of stipends in recruiting and retaining licensed personnel.

17 This bill provides for the transfer of money from the State Distributive School
18 Account to provide stipends to certain postprobationary teachers and principals
19 employed in isolated schools in remote and rural areas of Nevada.
