

ASSEMBLY BILL NO. 112—ASSEMBLYWOMAN PARNELL

FEBRUARY 22, 2005

---

JOINT SPONSOR: SENATOR AMODEI

---

Referred to Committee on Natural Resources,  
Agriculture, and Mining

**SUMMARY**—Requires certain vessels to carry on board certain safety devices. (BDR 43-770)

**FISCAL NOTE:** Effect on Local Government: Increases or Newly Provides for Term of Imprisonment in County or City Jail or Detention Facility.  
Effect on the State: Yes.

~

EXPLANATION – Matter in ***bolded italics*** is new; matter between brackets **[omitted material]** is material to be omitted.

---

AN ACT relating to watercraft; requiring certain vessels to carry on board certain safety devices accessible for use in an emergency; providing a penalty; and providing other matters properly relating thereto.

**Legislative Counsel's Digest:**

- 1 Existing law requires every water vessel to carry at least one personal flotation  
2 device for each person on board the vessel and for any person in a vessel being  
3 towed. The flotation device must be approved by the United States Coast Guard  
4 and prescribed by the Board of Wildlife Commissioners. Flotation devices stored  
5 on a vessel must be readily accessible for use in an emergency. (NRS 488.193)  
6 Existing law further provides that, with certain exceptions, a violation of any  
7 provision of the chapter governing watercraft is a misdemeanor. (NRS 488.950)  
8 This bill requires that a vessel which is 16 feet or more in length but less than  
9 26 feet in length carry a safety device which is capable of being thrown. This bill  
10 requires that a vessel which is 26 feet or more in length carry a safety device which  
11 is capable of being thrown and which has at least 30 feet of throwing line attached.  
12 The bill requires that a vessel which is 40 feet or more in length carry two safety  
13 devices which are capable of being thrown and which have at least 30 feet of  
14 throwing line attached to each. Because these requirements are included in the  
15 chapter governing watercraft, the general misdemeanor penalty for violations of the  
16 chapter apply to a person who violates any one of these requirements. (NRS  
17 488.950) Examples of these safety devices include a ring life buoy or buoyant

\* A B 1 1 2 R 1 \*

18 cushion. The safety devices must be readily accessible for use in an emergency.  
19 This bill clarifies what it means for a vessel to have its personal flotation devices  
20 and safety devices "readily accessible for use in an emergency."

---

THE PEOPLE OF THE STATE OF NEVADA, REPRESENTED IN  
SENATE AND ASSEMBLY, DO ENACT AS FOLLOWS:

1      **Section 1.** NRS 488.193 is hereby amended to read as follows:  
2      488.193 1. Except for a contrivance, propelled by a sail,  
3 whose occupant must stand erect, every vessel must carry at least  
4 one personal flotation device of a type approved by the United  
5 States Coast Guard and prescribed by the regulations of the  
6 Commission for each person on board and any person in a vessel  
7 being towed, so placed as to be readily accessible for use in an  
8 emergency. Every vessel carrying passengers for hire must carry so  
9 placed as to be readily accessible for use in an emergency at least  
10 one personal flotation device of the sort prescribed by the  
11 regulations of the Commission for each person on board. *A personal*  
12 *flotation device required by this subsection is readily accessible for*  
13 *use in an emergency if:*

- (a) *It is being worn; or*
- (b) *It is stowed where it is quickly reachable and is:*
  - (1) *Ready to wear;*
  - (2) *Out of its original packaging; and*
  - (3) *Not under lock and key.*

19      2. *In addition to the requirements set forth in subsection 1,*  
20 *unless exempted by the United States Coast Guard or the*  
21 *regulations of the Commission:*

22      (a) *Every vessel which is 16 feet or more in length but less*  
23 *than 26 feet in length, regardless of its method of propulsion, must*  
24 *carry, so placed as to be readily accessible for use in an*  
25 *emergency, a safety device capable of being thrown, such as a ring*  
26 *life buoy or buoyant cushion. A safety device required by this*  
27 *paragraph is readily accessible for use in an emergency if it is*  
28 *stowed in close proximity to the operator of the vessel and in a*  
29 *position to be thrown to a person overboard by either the operator*  
30 *or a passenger.*

31      (b) *Except as otherwise provided in this paragraph, every*  
32 *vessel which is 26 feet or more in length, regardless of its method*  
33 *of propulsion, must carry, so placed as to be readily accessible for*  
34 *use in an emergency, a safety device capable of being thrown,*  
35 *such as a ring life buoy or buoyant cushion, with not less than 30*  
36 *feet of throwing line attached. If the vessel is 40 feet or more in*  
37 *length, such a safety device must be carried on both the port side*  
38 *and the starboard side of the vessel. A safety device required by*

\* A B 1 1 2 R 1 \*

1    ***this paragraph is readily accessible for use in an emergency if it is  
2 prominently displayed on a bulkhead, railing or gunwale, and in a  
3 position to be thrown to a person overboard by either the operator  
4 or a passenger.***

5    **3.** Every motorboat must be provided with such number, size  
6 and type of fire extinguishers, capable of promptly and effectually  
7 extinguishing burning gasoline, as may be prescribed by the  
8 regulations of the Commission. The fire extinguishers must be of a  
9 marine type which has been approved by the United States Coast  
10 Guard and kept in condition for immediate and effective use and so  
11 placed as to be readily accessible.

12    **[3.] 4.** Every motorboat must have the carburetor of every  
13 engine therein, except outboard motors, using gasoline as fuel,  
14 equipped with such efficient flame arrestor, backfire trap or other  
15 similar device as may be prescribed by the regulations of the  
16 Commission.

17    **[4.] 5.** Every motorboat and every vessel, except open boats,  
18 using as fuel any liquid of a volatile nature, must be provided with  
19 such means as may be prescribed by the regulations of the  
20 Commission for properly and efficiently ventilating the bilges of the  
21 engine and compartments for tanks of fuel to remove any explosive  
22 or flammable gases.

23    **[5.] 6.** The Commission may adopt regulations modifying the  
24 requirements for equipment contained in this section to the extent  
25 necessary to keep these requirements in conformity with the  
26 provisions of the Federal Navigation Laws or with the rules for  
27 navigation adopted by the United States Coast Guard.

28    **Sec. 2.** This act becomes effective upon passage and approval.
