AN ACT relating to health care; revising the provisions governing the provision of care by a personal assistant for a person with a disability; and providing other matters properly relating thereto.

Legislative Counsel's Digest:

Existing law authorizes an unlicensed personal assistant to perform certain basic services for a person with a disability to help him maintain independence, personal hygiene and safety. (NRS 629.091)

This bill authorizes a parent or guardian of a minor with a disability to direct the care given by the personal assistant. This bill also authorizes a parent, spouse, guardian or adult child of a person with a disability who suffers from a cognitive impairment to direct the care given by the personal assistant. Unless the services are provided in an educational setting, this bill prohibits a personal assistant from performing services for a person with a disability in the absence of that person's parent or guardian, if the person with a disability is not able to direct his own services.
