AN ACT relating to public works; revising the provisions governing the terms of certain contracts between public bodies and certain design professionals; and providing other matters properly relating thereto.

**Legislative Counsel's Digest:**

Existing law establishes mandatory, optional and prohibited provisions in a contract for the provision of services in connection with a public work entered into between a public body and a design professional who is not a member of a design-build team. The contract must include provisions relating to payment and costs for enforcement of the contract. In addition, the contract may include provisions relating to a discount for prompt payment, the terms by which the design professional agrees to name the public body at its own cost as an additional insured in an insurance policy held by the design professional and a requirement that the design professional defend, indemnify and hold harmless the public body and its employees, officers and agents in certain matters arising out of the acts or omissions of the design professional or his employees or agents in the performance of the contract. The contract may not, however, require the design professional to defend, indemnify or hold harmless the public body or its employees, officers or agents in certain matters arising out of the acts or omissions of the employees, officers or agents of the public body. (NRS 338.155)

This bill specifies that the type of insurance policy to which such a contract may require the design professional to add the public body as an additional insured
