

Assembly Bill No. 15—Committee on  
Natural Resources, Agriculture, and Mining

CHAPTER.....

AN ACT relating to wildlife; expanding the purposes for which the money in the Wildlife Heritage Trust Account must be used to include expenditures for the management and control of predatory wildlife in this State; authorizing the expenditure of certain annual deposits in the Account; and providing other matters properly relating thereto.

**Legislative Counsel's Digest:**

Existing law creates the Wildlife Heritage Trust Account in the State General Fund for use by the Department of Wildlife for the management of game fish, game birds and game and fur-bearing mammals. (NRS 501.3575) Existing law provides that the Account is funded by proceeds from wildlife drawings and through monetary gifts made to the Account. (NRS 502.250) Existing law limits the Department's annual expenditure from the Account to the total interest earned on the money in the Account during the previous year. (NRS 501.3575)

This bill amends existing law by expanding the purposes for which the money in the Account must be used to include expenditures for the management and control of predatory wildlife in this State.

This bill further amends existing law by expanding the authorized expenditures from the Account. This bill allows the Department to expend an amount of money not greater than 75 percent of the money deposited in the Account during the previous year and the total interest earned on the Account during the previous year.
