AN ACT relating to land use planning; revising provisions governing continuances of matters before planning commissions in larger counties; and providing other matters properly relating thereto.

**Legislative Counsel's Digest:**

1 Existing law requires certain cities and counties to create planning  
2 commissions. (NRS 278.030) Existing law prohibits a planning commission in a  
3 county with a population of 400,000 or more (currently Clark County) from  
4 granting to an applicant more than two continuances on a matter, unless the  
5 planning commission determines that there is good cause for granting the additional  
6 continuances. (NRS 278.050)

7 This bill clarifies that the limitation on the granting of continuances on matters  
8 before such planning commissions only applies to requests for continuances by the  
9 applicant or his authorized representative on behalf of the applicant or his  
10 authorized representative. The limitation does not apply to a request for a  
11 continuance by the applicant or his authorized representative on behalf of an officer  
12 or employee of a city or county, a member of the commission or any owner of

13 property that may be directly affected by the matter. If the commission grants a  
14 continuance to an applicant or his authorized representative for good cause shown  
15 or grants a continuance on behalf of the other persons for whom the applicant or his  
16 authorized representative may request a continuance, the person on whose behalf  
17 the continuance was granted is required to make a good faith effort to resolve the  
18 issues concerning which the continuance was requested. This bill defines  
19 "applicant" as the person who owns the property to which the application pending  
20 before the commission pertains. This bill also describes circumstances that  
21 constitute "good cause" for granting continuances on matters in excess of the  
22 limitation, which include circumstances relating to the matter that are beyond  
23 the control of the applicant or his authorized representative and the desire by the  
24 applicant or his authorized representative to revise plans or drawings, engage in  
25 negotiations concerning the matter or retain an attorney.
