AN ACT relating to anatomical gifts; transferring certain duties pertaining to anatomical gifts from the Bureau of Consumer Protection in the Office of the Attorney General to the University of Nevada School of Medicine; expanding the types of information given to certain applicants for drivers' licenses and identification cards concerning anatomical gifts; and providing other matters properly relating thereto.

Legislative Counsel's Digest:

Existing law requires the Bureau of Consumer Protection of the Office of the Attorney General to perform certain duties relating to anatomical gifts, which are donations of all or part of a human body effective on or after the death of the donor. These gifts are used for transplants or medical education purposes. The Bureau's duties include operation of educational and donor acknowledgment programs and, if sufficient money exists in the Anatomical Gift Account, the payment of costs of organ and tissue transplants. (NRS 460.100-460.150)

This bill transfers those duties from the Bureau to the University of Nevada School of Medicine.

Existing law requires the Department of Motor Vehicles to provide information relating to anatomical gifts to each holder of a driver's license or identification card who is interested in becoming a donor. (NRS 483.340, 483.840)

This bill also requires the Department to provide information concerning entities that educate the public about anatomical gifts and that register persons as donors. The Department must also provide information concerning the procedures for registering as a donor with such entities and must submit to such entities information on persons who have indicated their intention to make an anatomical gift.
