**If this amendment is adopted, the Legislative
Counsel's Digest will be changed to read as follows:**

Legislative Counsel's Digest:

Existing law establishes the Public Employees' Retirement System. The System provides benefits for the retirement, disability or death of employees of public employers and is funded on an actuarial reserve basis. (NRS 286.110)

Under existing law, a member of the System may purchase all previous creditable service performed with his present employing agency if that service was performed before the enrollment of his agency in the System. A member of the System, including a volunteer firefighter, with 5 years of creditable service may also purchase up to 5 years of service. (NRS 286.300, 286.367)

This bill authorizes a member of the Public Employees' Retirement System, including a volunteer firefighter, who has 5 years of creditable service and who served on active military duty to purchase a number of months of service equal to the number of full months he served on active military duty, up to 2 years of service. The purchase is in addition to any other purchase of service credit authorized by law and is in addition to any free credit received for military service. To qualify for the purchase, the member must have been honorably discharged or released from active duty. The member must pay the full actuarial cost of the service.
