Amend section 1, page 2, by deleting lines 5 through 9 and inserting:

“(a) Establishing standards for the construction of an engineered liner and leachate collection system for all new municipal solid waste landfills and all lateral expansions of existing municipal solid waste landfills if either accepts more than 200 tons per day of solid waste on an annual average; and

(b) Requiring the installation of an engineered liner and leachate collection system for all new municipal solid waste landfills and all lateral expansions of existing municipal solid waste landfills if either accepts more than 200 tons per day of solid waste on an annual average.”.

Amend the title of the bill to read as follows:

“AN ACT relating to solid waste; requiring the State Environmental Commission to adopt regulations establishing standards for the construction of liner and leachate collection

MGF/TMC

Date: 4/21/2005

A.B. No. 444—Revises provisions governing solid waste disposal sites.

systems for certain solid waste disposal sites and requiring the installation of a liner and leachate collection system at certain such sites; and providing other matters properly relating thereto.”.

**If this amendment is adopted, the Legislative
Counsel's Digest will be changed to read as follows:**

Legislative Counsel's Digest:

Existing law requires the State Environmental Commission to adopt regulations concerning solid waste management systems, including regulations concerning permits to construct or operate a disposal site. (NRS 444.560)

This bill requires the State Environmental Commission to adopt regulations that: (1) establish standards for the construction of liner and leachate collection systems for certain solid waste disposal sites; and (2) require the installation of a liner and leachate collection system at certain new disposal sites and at any lateral expansion of certain existing disposal sites.
