A.B. No. 518—Authorizes school districts to prescribe minimum attendance requirements for pupils in kindergarten and first grade and for pupils in certain remedial programs.

the application not later than 30 days after the Superintendent of Public Instruction receives the application. An alternative schedule proposed pursuant to this subsection must be developed in accordance with chapter 288 of NRS. If a school district is located in a county whose population is 100,000 or more, the school district may not submit an application pursuant to this subsection unless the proposed alternative schedule of the school district will apply only to a rural portion or a remote portion of the county in which the school district is located, as defined by the State Board pursuant to subsection ~~[8.]~~ 9.

3. The Superintendent of Public Instruction may, upon application by the board of trustees of a school district, authorize a reduction of not more than 15 school days in that particular district to establish or maintain an alternative schedule consisting of a 12-month school program if the board of trustees demonstrates that the proposed alternative schedule for the program provides for a number of minutes of instruction that is equal to or greater than that which would be provided under a program consisting of 180 school days. Before authorizing a reduction in the number of required school days pursuant to this subsection, the Superintendent of Public Instruction must find that the proposed alternative schedule will be used to alleviate problems associated with a growth in enrollment or overcrowding.

4. The Superintendent of Public Instruction may, upon application by a board of trustees, authorize the addition of minutes of instruction to any scheduled day of free school if days of free school are lost because of any interscholastic activity. Not more than 5 days of free school so lost may be rescheduled in this manner. The provisions of this subsection do not apply to an alternative schedule approved pursuant to subsection 2.

5. The number of minutes of instruction required for a particular group of pupils in a program of instruction based on an alternative schedule approved pursuant to this section must be determined by multiplying the appropriate minimum daily period of instruction established by the State Board by regulation for that particular group of pupils by 180.

6. *The Superintendent of Public Instruction may, upon application by the board of trustees of a school district, authorize additional days or minutes of instruction for a program of remedial education that is fully paid for through the school district, including, without limitation, the provision of transportation. If the Superintendent of Public Instruction authorizes such additional days or minutes, the board of trustees may adopt a policy prescribing the minimum number of days of attendance or the minimum number of minutes of attendance for a pupil who is determined to need such remedial education. If the board of trustees adopts such a policy, the policy must include, without limitation, the criteria for determining that a pupil be enrolled in the program of remedial education, the procedure pursuant to which parents and guardians will be notified of the pupil's progress throughout the school year and a process for appealing a determination regarding a pupil's need for remedial education.*

7. Each school district shall schedule at least 3 contingent days of school, or its equivalent if the school district operates under an alternative schedule authorized pursuant to this section, in addition to the number of days required by this section, which must be used if a natural disaster, inclement weather or an accident necessitates the closing of a majority of the facilities within the district.

~~[7.]~~ 8. If more than 3 days of free school, or its equivalent if the school district operates under an alternative schedule authorized pursuant to this section, are lost because a natural disaster, inclement weather or an accident necessitates the closing of a majority of the facilities within a

school district, the Superintendent of Public Instruction, upon application by the school district, may permit the additional days lost to be counted as school days in session. The application must be submitted in the manner prescribed by the Superintendent of Public Instruction.

~~{8-}~~ 9. The State Board shall adopt regulations:

(a) Providing procedures for changing schedules of instruction to be used if a natural disaster, inclement weather or an accident necessitates the closing of a particular school within a school district.

(b) Defining a rural portion of a county and a remote portion of a county for the purposes of subsection 2.”.
