S.B. No. 18—Revises provisions governing program that provides grants for water conservation and capital improvements to certain water systems.

**If this amendment is adopted, the Legislative  
Counsel's Digest will be changed to read as follows:**

**Legislative Counsel's Digest:**

Existing law establishes a program to provide grants to publicly owned water systems to pay the costs associated with various types of projects authorized by statute. (NRS 349.980-349.987)

This bill expands the authorized projects to include the connection of wells to a municipal water system. For the publicly owned water system to receive a grant, the quality of the water of a well must fail to comply with the standards of the Safe Drinking Water Act. (42 U.S.C. §§ 300f et seq.)
