Amend the title of the bill by deleting the fourth line and inserting:

“systems of communication; revising the date on which certain bodies and agencies must follow certain provisions regarding the purchase of information systems and systems of communication; and providing other matters”.

Amend the summary of the bill to read as follows:

“SUMMARY—Revises provisions regarding certain systems of communication related to public safety. (BDR 19-749)”.

**If this amendment is adopted, the Legislative  
Counsel's Digest will be changed to read as follows:**

**Legislative Counsel's Digest:**

Existing law creates the Nevada Commission on Homeland Security and requires the Commission to assess, examine, review and establish a state plan concerning the compatibility and interoperability of information systems and systems of communication used by response agencies within this State. (NRS 239C.120, 239C.160) Existing law prohibits state and local governmental agencies from purchasing an information system or system of communication unless the system complies with the state plan established by the Commission. (NRS 332.830, 333.820) Existing law defines the term "system of communication" to include any public safety radio system or telecommunication system. (NRS 239C.100)

This bill requires the Nevada Commission on Homeland Security to advise and make recommendations to the Governor relative to the compatibility and interoperability of such systems with particular emphasis upon the compatibility and interoperability of public safety radio systems. This bill also postpones, from July 1, 2005, until October 1, 2005, the date on which state and local governmental agencies are prohibited from purchasing an information system or system of communication that does not comply with the state plan established by the Commission.
