**AN ACT** relating to transportation; changing the composition of the Board of Directors of the Department of Transportation and creating an Advisory Committee to the Board; requiring the Legislative Auditor to conduct a performance audit of the Department of Transportation; and providing other matters properly relating thereto.

**Legislative Counsel's Digest:**

Existing law creates the Department of Transportation, which is administered by a Board of Directors. The Board of Directors consists of seven members, including the Governor, the Lieutenant Governor, the Attorney General, the State Controller and three members appointed by the Governor. The Governor is required to appoint to the Board three members who are informed on and interested in matters relating to transportation and who possess certain qualifications. Each must reside in a different highway district. (NRS 408.106)

This bill changes the composition of the Board of Directors of the Department of Transportation. This bill removes the State Controller from the Board and increases to four the number of members appointed by the Governor.

This bill makes various changes to the requirements concerning members appointed by the Governor, most notably requiring that all four members must have knowledge of and experience in transportation matters, and at least one of the members must reside in each of the different highway districts.

Under existing law, the members of the Board appointed by the Governor serve terms of 4 years and are eligible for reappointment.

This bill limits each such member appointed by the Governor to two terms.

This bill also creates an Advisory Committee to the Board of Directors, consisting of the chairman of the regional transportation commission of each county with a population of 100,000 or more (currently Washoe County and Clark County) and an additional member appointed by the Governor. This bill directs the

22 Governor to appoint to the Advisory Committee the chairman of the regional  
23 transportation commission of a county whose population is less than 100,000.  
24 Successive appointments must be made on a rotating basis among the various  
25 counties.

26 This bill also directs the Legislative Auditor to conduct a performance audit of  
27 the Department of Transportation. The Legislative Auditor must submit a written  
28 report of the performance audit to the Audit Subcommittee of the Legislative  
29 Commission no later than February 5, 2007.
