EXPLANATION – Matter in *bolded italics* is new; matter between brackets ~~omitted material~~ is material to be omitted.

AN ACT relating to dentistry and dental hygiene; revising various provisions governing the qualifications, examination and licensure of dentists and dental hygienists; revising the provisions governing activities that are deemed to be included within the practice of dentistry; providing for the biennial renewal of certain licenses; increasing the limits for certain licensing fees; changing the standard of proof in certain proceedings before the Board of Dental Examiners of Nevada; and providing other matters properly relating thereto.

**Legislative Counsel's Digest:**

Under existing law, the Board of Dental Examiners of Nevada consists of 11 members, three of whom must be dental hygienists. The members who are dental hygienists are prohibited from grading any portion of the licensing examination for dentists. The licensing examination for dentists includes a clinical portion which examines the applicant's practical knowledge of dentistry and which includes clinical demonstrations of the applicant's dentistry skills. (NRS 631.130, 631.240)

This bill allows the members of the Board who are dental hygienists to grade portions of the licensing examination for dentists. However, those members are prohibited from grading the clinical portion of the examination.

Existing law prohibits a person from practicing dentistry without a license. (NRS 631.395, 631.400) Existing law also defines which activities are considered to be practicing dentistry. (NRS 631.215)

This bill provides that a person is practicing dentistry if the person uses X-ray or laser radiation for dental diagnosis or treatment or if the person dispenses certain tooth whitening agents or undertakes to whiten or bleach teeth other than with over-the-counter products. However, a person may engage in such activities without

being licensed as a dentist if the person is acting in a manner authorized by the regulations of the Board.

Existing law allows the Board to issue temporary licenses to practice dental hygiene to persons who are licensed in another jurisdiction and who meet certain additional qualifications. These provisions are set to expire by limitation on September 30, 2005. (NRS 631.273; Section 34 of Chapter 89, Statutes of Nevada 2003, at page 522)

This bill removes the expiration date for the issuance of these temporary licenses. However, this bill prevents the Board from issuing any additional temporary licenses on or after July 1, 2006. Any person who holds a temporary license on July 1, 2006, may continue to practice under the temporary license until December 31, 2008, or until the person applies for and is issued or denied a permanent license, whichever period is shorter.

Existing law establishes certain requirements that an applicant must satisfy before receiving a license to practice dentistry or dental hygiene, including requirements concerning age, citizenship, education and character. (NRS 631.230, 631.290) These requirements are not expressly set forth in each of the licensing statutes administered by the Board. (NRS 631.255, 631.271, 631.272, 631.274, 631.275)

This bill adds the existing requirements concerning age, citizenship, education and character to each of the licensing statutes administered by the Board.

Existing law allows the Board of Dental Examiners to issue a limited license to practice dentistry or dental hygiene to an applicant who will practice as a dental intern, a dental resident or an instructor at a facility of the University and Community College System of Nevada. (NRS 631.271)

This bill establishes additional requirements that an applicant must meet to be issued a limited license by the Board.

Existing law allows a board of county commissioners to request a waiver of certain licensing requirements for an applicant who intends to practice dentistry or dental hygiene in an underserved rural area of the county. If a waiver is granted by the Board of Dental Examiners, the applicant receives a restricted geographical license for that county only. (NRS 631.274)

This bill authorizes two or more boards of county commissioners to make a joint request for a waiver on behalf of applicants who intend to practice in underserved rural areas within multiple counties. If a waiver is granted by the Board of Dental Examiners, the applicant receives a restricted geographical license covering those counties.

Under existing law, an applicant for a license as a dental hygienist must be a graduate of a school of dental hygiene or other institution which awards at least an associate's degree and which is accredited by a regional educational accrediting organization that is recognized by the United States Department of Education. (NRS 631.290)

This bill removes the requirement that the institution has to award at least an associate's degree. Rather, the institution need only be accredited by a regional educational accrediting organization that is recognized by the United States Department of Education.

Under existing law, an applicant for a license to practice dental hygiene must pass an examination which examines the applicant's practical knowledge of dental hygiene. This examination is administered by the Board of Dental Examiners of Nevada. (NRS 631.300)

This bill amends existing law by giving the applicant the option of either passing the clinical examination administered by the Board or presenting the Board with a certificate establishing that the applicant has passed a clinical examination administered by the Western Regional Examining Board within the 5 years before the date of the application.

Existing law requires dentists and dental hygienists to renew their licenses each year. (NRS 631.330) Existing law also establishes maximum limits on the fees the Board may charge for the issuance and renewal of licenses. (NRS 631.345)

This bill requires dentists and dental hygienists who hold certain licenses to renew their licenses every 2 years. This bill also increases the maximum limits on the fees the Board may charge for the issuance and renewal of licenses.

Under existing law, the Board may deny an application for a license or may take disciplinary action against a licensee upon proof satisfactory to the Board that the person has engaged in certain unlawful or unprofessional conduct. (NRS 631.255, 631.271, 631.274, 631.275, 631.350) The Nevada Supreme Court has interpreted satisfactory proof to mean proof by clear and convincing evidence. (*Gilman v. Nevada State Bd. of Veterinary Med. Exam'rs*, 120 Nev. Adv. Op. 31, 89 P.3d 1000 (2004)) Clear and convincing evidence is established by presenting evidence which shows each factual element to be highly probable or evidence which is so clear as to leave no substantial doubt. (*In re Drakulich*, 111 Nev. 1556 (1995))

This bill changes the Board's standard of proof to substantial evidence, which is the standard of proof generally followed by state agencies under the Nevada Administrative Procedure Act. (NRS 233B.135) Substantial evidence is established by presenting evidence that a reasonable person would deem adequate to support a decision. (*City of Reno v. Reno Police Protective Ass'n*, 118 Nev. 889 (2002))
