34 containing different qualities of the same petroleum product *or*
35 *motor vehicle fuel* and dispensing them as a single combined
36 product must be authorized if the Division of Measurement
37 Standards of the State Department of Agriculture determines that all
38 ~~[of]~~ the following conditions exist:

39 (a) The device mechanism accurately measures the quantities of
40 the gasoline being simultaneously withdrawn from each of the two
41 tanks and the quantity dispensed.

42 (b) The device mechanism accurately and visibly records and
43 displays the resulting combined quality, the total quantity, the price
44 per gallon for the particular quality combination being dispensed ~~[]~~

1 and the total price of the quantity of gasoline dispensed at the
2 particular sale.

3 (c) The device has a locking selector mechanism which prevents
4 the changing of the proportion of the two qualities being combined
5 during the dispensing of the desired quantity.

6 2. The provisions of this section authorize the operation of a
7 blending type of pump *or dispenser* connected to two tanks
8 containing two different grades of the same product, which, if
9 blended together in different proportions, will produce gasoline of
10 different octane rating, each blend of which meets the specifications
11 for gasoline as required by this chapter.

12 **Sec. 10.** NRS 590.065 is hereby amended to read as follows:

13 590.065 1. The use of pumps , *dispensers* or other devices
14 which are capable of withdrawing gasoline from one tank containing
15 gasoline and another tank containing motor oil and dispensing them
16 as a single combined product and of withdrawing gasoline alone
17 from the tank containing gasoline must be authorized if the Division
18 of Measurement Standards of the State Department of Agriculture
19 determines that all ~~{of}~~ the following conditions exist:

20 (a) The device mechanism accurately measures the quantities
21 being simultaneously withdrawn for dispensing as a combined
22 product from each of the two tanks when the combined product is
23 dispensed, and the quantity being dispensed from the gasoline tank
24 alone when gasoline alone is dispensed.

25 (b) The device mechanism accurately and visibly records and
26 displays the ratio of gasoline to motor oil, the quantity of each
27 ingredient being dispensed, the price per gallon for gasoline being
28 dispensed and the price per quart for motor oil being dispensed, or
29 ~~{a device the mechanism of which}~~ accurately and visibly records
30 and displays the ratio of gasoline to motor oil ~~{,}~~ *and* the total
31 volume of the oil and gasoline mixture delivered, and computes the
32 total cost based upon the price set for the finished blend.

33 (c) The device mechanism prevents the changing of the ratio of
34 gasoline to motor oil during dispensing.

35 (d) There is firmly attached to or painted upon the device
36 mechanism panel a sign or label plainly visible consisting of the
37 words ~~{“outboard”}~~ *“two-cycle* motor fuel” ~~{in letters not less than~~
38 ~~one-half inch in height,}~~ together with the brand ~~{, trademark or~~
39 ~~trade}~~ name *or trademark* of the product, *all of* which must be in
40 letters ~~{of}~~ not less than one-half inch in height.

41 2. The provisions of this section authorize the operation of a
42 blending type of pump *or dispenser* connected to two tanks, one
43 containing motor oil and the other gasoline, but only if the motor oil
44 in its separate state meets the specifications for lubricating oil as

1 required by NRS 590.080 ~~[]~~ and the gasoline in its separate state
2 meets the specifications for gasoline as required by NRS 590.070.

3 **Sec. 11.** NRS 590.070 is hereby amended to read as follows:

26 day. All fines collected by the Board pursuant to the regulations
27 adopted pursuant to this subsection must be ~~[remitted to the county~~
28 ~~treasurer of the county in which the violation occurred]~~ *deposited*
29 *with the State Treasurer* for credit to the ~~[county school district~~
30 ~~fund.]~~ *State General Fund.*

31 2. The State Board of Agriculture may:
