EXPLANATION – Matter in ***bolded italics*** is new; matter between brackets **[omitted material]** is material to be omitted.

AN ACT relating to counties; revising the provisions governing systems used for reporting emergencies in certain counties; and providing other matters properly relating thereto.

Legislative Counsel's Digest:

Under existing law, counties whose population is 20,000 or more but less than 400,000 (currently Washoe, Elko, Douglas, Nye, Lyon and Churchill Counties and Carson City) may impose a surcharge to enhance the telephone system for reporting an emergency in the county so that the number and address from which a call received by the system is made may be determined. The proceeds of the surcharge are required to be deposited in a special revenue fund of the county and may only be used to enhance the telephone system. (NRS 244A.7643, 244A.7645) **Sections 1 and 2** of this bill expand the authority to impose such a surcharge to counties whose population is less than 20,000 (currently Humboldt, White Pine, Pershing, Lander, Mineral, Lincoln, Storey, Eureka and Esmeralda Counties). **Sections 1 and 2** also allow counties that impose such a surcharge, other than a county whose population is 100,000 or more (currently Washoe County), to spend the proceeds of the surcharge for the additional purpose of improving the telephone system for reporting an emergency in the county and any related communications system, which may include purchasing, leasing or renting the equipment and software necessary to ensure the interoperability of the communications system among emergency response agencies.

Existing law authorizes local governments to impose certain fees on public utilities, including persons and local governments that sell or resell personal

20 wireless services, for a business license, franchise or right-of-way, which are
21 deposited in the general fund of the local government. (NRS 354.59881-354.59889)
22 Under existing law, if a surcharge to enhance the telephone system for reporting an
23 emergency is imposed in a county whose population is less than 100,000 and the governing body of the county or a city within the county also imposes a fee for a
24 business license on a provider of personal wireless service, the money generated by
25 the fee is required to be deposited into the same special revenue fund in which the
26 proceeds of the surcharge are deposited. (NRS 244A.7645, 244A.76455) **Section 3**
27 of this bill eliminates the requirement that these fees be deposited in the special
28 revenue fund; therefore, such fees will be deposited in the county general fund in
29 the same manner as before the enactment of the ordinance imposing the surcharge.
