SUMMARY—Makes various changes pertaining to methamphetamine and other controlled substances. (BDR 40-667)

FISCAL NOTE: Effect on Local Government: May have Fiscal Impact. Effect on the State: Yes.

EXPLANATION – Matter in **bolded italics** is new; matter between brackets [omitted material] is material to be omitted.

AN ACT relating to controlled substances; making various changes pertaining to crimes related to the use or manufacturing of methamphetamine and other controlled substances; revising various provisions pertaining to nuisances; making various changes relating to lithium metal, sodium metal and anhydrous ammonia; enacting provisions relating to the sale or transfer of certain precursors to methamphetamine; providing penalties; and providing other matters properly relating thereto.

## Legislative Counsel's Digest:

This bill makes various changes pertaining to methamphetamine and other controlled substances.

**Section 40** of this bill prohibits a person from: (1) selling or transferring in the course of business a product that is a precursor to methamphetamine; or (2) engaging in the business of selling at retail a product that is a precursor to methamphetamine, unless the person is a pharmacy or the holder of a permit which allows the person to sell or transfer products that are precursors to methamphetamine. A person who violates these prohibitions is guilty of a category C felony. To obtain a permit to sell or transfer products that are precursors to methamphetamine, a person must submit an application to the State Board of Pharmacy and pay a fee of \$200. The Board must issue a permit to a person if the Board determines, after considering certain factors, that the person will safely and lawfully sell products that are precursors to methamphetamine.

**Section 41** of this bill requires a pharmacy of the holder of a permit to: (1) comply with state and federal law concerning the sale and transfer of products that are precursors to methamphetamine; and (2) submit to the Department of Public Safety a quarterly report of the quantity of each purchase and sale or transfer of a product that is a precursor to methamphetamine. If a pharmacy or permit holder does not comply with either of these requirements, **section 45** allows the State Board of Pharmacy to take certain disciplinary action against the pharmacy or permit holder.

**Section 2** of this bill prohibits the possession or disposition of chemical waste or debris resulting from the manufacture of methamphetamine. **Section 3** of this bill prohibits the possession of lithium metal or sodium metal under certain circumstances.

Existing law prohibits a person from possessing certain chemicals with the intent to manufacture or compound a controlled substance other than marijuana. (NRS 453.322) **Section 7** of this bill adds lithium metal and sodium metal to the list of prohibited chemicals. **Section 7** also prohibits a person from providing such a chemical to another person with the intent that it be used in the manufacturing or compounding of a controlled substance other than marijuana.

Existing law provides that a building or place used to unlawfully manufacture a controlled substance is a nuisance, which creates civil liability, and a public nuisance, which is punishable criminally. (NRS 40.140, 202.450, 202.470) **Sections 10 and 11** of this bill provide that a building or place that was used to unlawfully manufacture a controlled substance is both a nuisance and a public nuisance if certain activities relating to the decontamination of the building or place have not occurred within a certain period.

Section 12 of this bill provides that a person commits first degree arson if, by knowingly engaging in the manufacture of methamphetamine, the person sets fire to or causes an explosion that damages a dwelling house or personal property that is occupied by one or more persons. Section 13 of this bill provides that a person commits second degree arson if, by knowingly engaging in the manufacture of methamphetamine, the person sets fire to or causes an explosion that damages any abandoned building or structure. Section 14 of this bill provides that a person is guilty of a category B felony if the person commits the theft of certain chemicals that are precursors to controlled substances, regardless of the value of those chemicals.

Sections 21-32 of this bill require the State Department of Agriculture, in consultation with the Department of Public Safety, to certify substances that are added to anhydrous ammonia for the purpose of rendering the anhydrous ammonia unusable or undesirable for the manufacture of methamphetamine. To assist in advising the State Department of Agriculture on the certification of such

substances, **sections 32 and 33** of this bill create the Anhydrous Ammonia Advisory Committee.
