**Legislative Counsel's Digest:**

Existing law requires the Director of the Department of Health and Human Services to apply to the Federal Government for a waiver pursuant to the Health Insurance Flexibility and Accountability demonstration initiative to provide certain health care benefits to more residents of Nevada for which matching funds are available from the Federal Government. (NRS 422.2726) Existing law further provides that the waiver is to provide coverage for services to pregnant women whose income is not more than 185 percent of the federally designated level signifying poverty. (NRS 422.2727) **Section 1** of this bill increases that income threshold to 200 percent of the federally designated level signifying poverty. Existing law further provides that the waiver is to provide a monthly subsidy of up to \$100 toward a policy of insurance purchased by an employee or the spouse of an employee who works for certain small employers if the employee or spouse meet certain requirements. **Section 1** requires the Director, if the waiver is authorized only for employees or the spouses of employees who have children, to establish a program to provide such a subsidy to an employee or spouse of an employee who does not have a child which must include the subsidy in that program, to the extent that money is available for that purpose, for employees or their spouses who do not have children but would otherwise qualify for the subsidy pursuant to the waiver.

**Section 2** of this bill provides an appropriation in the amount of \$4,500,000 for each fiscal year of the biennium to pay for the cost of increasing the income threshold for making pregnant women eligible for coverage through the waiver. **Section 3** of this bill provides an appropriation in the amount of \$6,000,000 for each fiscal year to pay for the cost of providing the subsidy toward a policy of insurance provided to employees or their spouses who do not have children. **Section 4** of this bill provides an appropriation in the amount of \$4,500,000 for each fiscal year to allow the Department of Health and Human Services to provide insurance to more children through the Children's Health Insurance Program.

Existing law provides that any money remaining in the Health Insurance Flexibility and Accountability Holding Account in the State General Fund at the end of each fiscal year reverts to the Fund for Hospital Care to Indigent Persons and to the State General Fund in equal amounts. (NRS 428.305) **Section 5** of this bill provides that any such money that is reverted from the Health Insurance Flexibility and Accountability Holding Account to the Fund for Hospital Care to Indigent Persons at the end of each fiscal year may be used to pay claims for any previous fiscal years.
