\* A B 2 3 2 R 2 \*

4 **5-8** of this bill require the Department of Health and Human Services to: (1) combine the contents of the list with usual and customary pricing information received from pharmacies that are licensed by the State Board of Pharmacy; and (2) present the combined information on the Department's Internet website so that consumers may compare the prices currently being charged by those pharmacies for those prescription drugs. By regulation, links to such information on the Department's website may be placed on the Internet websites of other persons and entities, including pharmacies and other governmental entities. **Section 4** of this bill requires pharmacies that are licensed by the State Board of Pharmacy and located in the State of Nevada to provide to the Department, at least once each month, the usual and customary prices that the pharmacy charges for the prescription drugs on the list of most-prescribed drugs compiled by the Retail Association of Nevada, as well as certain contact information for the pharmacy. Pharmacies that are licensed by the State Board of Pharmacy but located outside the State of Nevada may, but are not required to, provide such information. **Section 9** of this bill allows the Department to accept grants, donations, gifts and other public and private money to carry out the provisions of this bill. **Section 9** also requires the Department to determine at the beginning of each fiscal year whether sufficient money is available to fund one or more components of the programs and duties of the Department relating to **sections 2-10** of this bill. **Section 10** of this bill provides that if a pharmacy is required to provide information to the Department pursuant to **section 4** and the pharmacy, without good cause, fails to do so or fails to do so in a timely manner, the Department may impose an administrative penalty of up to \$500 for each day on which such a failure occurs. This bill excludes institutional pharmacies from the application of its provisions.
