AN ACT relating to gaming; revising the provisions relating to the approval of nonrestricted gaming licenses in certain counties to authorize local governments in such counties to adopt certain standards that establishments must meet to be granted nonrestricted gaming licenses; and providing other matters properly relating thereto.

Legislative Counsel's Digest:

Under existing law, the Nevada Gaming Commission is prohibited from granting a nonrestricted gaming license for an establishment located in a county whose population is 100,000 or more (currently Clark and Washoe Counties) unless the establishment is a resort hotel, which is defined as a hotel that has a gaming area and more than 200 rooms, at least one bar that seats more than 30 patrons, and at least one restaurant which is always open and which seats more than 60 patrons. (NRS 463.01865, 463.1605) A county, city or town is also authorized to require resort hotels to meet additional standards as a condition of issuance of a gaming license by the county, city or town. (NRS 463.1605)

This bill provides that the Nevada Gaming Commission is prohibited from granting a nonrestricted gaming license to an establishment located in a county whose population is less than 100,000 unless the establishment meets the standards, if any, that are adopted by the county, city or town in which the establishment is located. This bill also authorizes a county, city or town to adopt standards that require an establishment to have a minimum number of rooms for sleeping accommodations or other specific amenities as a condition of issuance of a gaming license by the county, city or town.
