AN ACT relating to cities; authorizing certain cities to annex certain noncontiguous territory; and providing other matters properly relating thereto.

**Legislative Counsel's Digest:**

Under existing law, if a city is located in a county whose population is 100,000 or more but less than 400,000 (currently Washoe County) for which a comprehensive regional plan has been adopted, the city is required to adopt a program of annexation, which must be certified by the regional planning commission. (NRS 268.625) Except under an alternative procedure set forth in existing law, such a city is prohibited from considering the annexation of an area that is not both within a designated sphere of influence of the city and included in the city's program of annexation. (NRS 268.625, 268.670) Under existing law, noncontiguous territory may be proposed for annexation by a certified program of annexation if: (1) the proposal is a voluntary annexation; (2) the timing of the annexation is consistent with the certified program; and (3) the services and facilities required for the development of the land will be provided upon annexation. (NRS 268.6255) However, under the procedural provisions in existing law for initiating annexation, the governing body of a city in a county whose population is less than 400,000 (currently counties other than Clark County) is only authorized to initiate the annexation of territory that is contiguous to the city. (NRS 268.610, 268.636) This bill authorizes the governing body of a city in a county whose population is less than 400,000 that has a certified program of annexation to initiate the annexation of noncontiguous territory that is in a designated sphere of influence of the city and was included in the city's program of annexation because it was a voluntary annexation, the timing of the annexation was consistent with the program and the required services and facilities will be provided upon annexation.
