AN ACT relating to education; requiring the Department of Education to establish a procedure for the notification, tracking and monitoring of the status of criminal cases involving licensed teachers and other licensed educational personnel; and providing other matters properly relating thereto.

Legislative Counsel's Digest:

Under existing law, the State Board of Education may, upon certain grounds, suspend or revoke the license of a teacher and other educational personnel. (NRS 391.330) Existing law also sets forth the process for the suspension or revocation of such a license. (NRS 391.320-391.361)

This bill requires the Department of Education to adopt regulations that establish a procedure for the notification, tracking and monitoring of the status of criminal cases involving persons who are licensed pursuant to chapter 391 of NRS. Under the procedure, each school district and each charter school is required to notify the Department of the arrest of a person who is licensed pursuant to chapter 391 of NRS if: (1) the act for which the licensee is arrested may be a ground for the suspension or revocation of the person's license; and (2) the school district or charter school has knowledge of that arrest. Upon receipt of such notice, the Department is required to prepare a separate file for the documentation and monitoring of the status of the case involving the licensee. If the case is referred to the State Board for its review and the State Board determines that there is not sufficient evidence to suspend or revoke the license, the file maintained by the Department and any related documents must not be made a part of the licensee's permanent employment record. This bill also provides immunity from civil or criminal liability for persons who make reports or provide notice concerning a person who is licensed pursuant to chapter 391 of NRS and who is arrested.
