EXPLANATION – Matter in ***bolded italics*** is new; matter between brackets **[omitted material]** is material to be omitted.

AN ACT relating to health care; requiring a provider of health care who files a claim on the health insurance of a patient to provide a bill to the patient within a certain period after the claim is approved or denied; requiring a provider of health care in all other cases to provide a bill to a patient within a certain period after providing the care; and providing other matters properly relating thereto.

Legislative Counsel's Digest:

1 A provider of health care who charges a patient for services, equipment,
2 supplies or medicines is required to provide the patient with a bill that itemizes the
3 charges. Under existing law, the bill must be "timely provided" after the charge is
4 incurred. (NRS 629.071) This bill establishes periods within which a provider of
5 health care must provide a bill to a patient. If the patient is covered by a policy of
6 health insurance and the provider of health care files a claim with the insurer, this
7 bill requires the provider of health care to provide a bill to the patient within 60
8 days after the insurer approves or denies the claim. In all other cases, this bill
9 requires the provider of health care to provide a bill to the patient within 60 days
10 after providing the services, equipment, supplies or medicines for the patient.
