

Assembly Bill No. 529—Committee on Government Affairs

CHAPTER.....

AN ACT relating to the State Fire Marshal; clarifying that, with certain exceptions, regulations adopted by the State Fire Marshal concerning building codes do not apply in certain larger counties; and providing other matters properly relating thereto.

**Legislative Counsel's Digest:**

Under existing law, the State Fire Marshal is required to enforce all laws and adopt regulations relating, in pertinent part, to the safety, access, means and adequacy of exit in case of fire from certain buildings used by the public. (NRS 477.030) In accordance with this duty, the State Fire Marshal has adopted by reference in regulation the *International Fire Code*, 2003 Edition, Volume 1, and the *International Building Code*, 2003 edition, Volumes 1 and 2, with certain changes. (NAC 477.281, 477.283) Although the regulations adopted by the State Fire Marshal apply throughout the State, the State Fire Marshal is only authorized under existing law to enforce those regulations: (1) with respect to buildings owned or occupied by the State; and (2) in counties whose population is less than 100,000 other than consolidated municipalities (currently counties other than Clark and Washoe Counties and Carson City). In counties whose population is 100,000 or more (currently Clark and Washoe Counties and Carson City), the local jurisdictions in those counties are required to enforce the regulations of the State Fire Marshal except if a local jurisdiction in such a county requests the State Fire Marshal to perform such enforcement. (NRS 477.030) Existing law also authorizes the governing body of a city or county to adopt building codes and authorizes boards of county commissioners to regulate all matters relating to the construction, maintenance and safety of buildings, structures and property within the county. (NRS 244.3675, 268.413, 278.580)

This bill makes the regulations adopted by the State Fire Marshal concerning building codes inapplicable in a county whose population is 400,000 or more (currently Clark County) if that county has adopted a code at least as stringent as the *International Fire Code* and the *International Building Code*, except with respect to buildings owned or occupied by the State and public schools and except in a local jurisdiction in such a county in which the State Fire Marshal is requested to enforce those regulations by the chief executive officer of the jurisdiction. To maintain the exemption from the applicability of those regulations of the State Fire Marshal, the code of the county must be at least as stringent as the most recently published editions of the *International Fire Code* and the *International Building Code* within 1 year after publication of such an edition.
