AN ACT relating to State Government; authorizing the Governor to designate a temporary replacement if the State Controller or the State Treasurer becomes temporarily incapacitated; requiring certification by a licensed physician; defining “incapacity”; and providing other matters properly relating thereto.

Legislative Counsel’s Digest:

Under existing law, if a vacancy occurs in the office of any state officer, the Governor is required to appoint a person to serve in that office until the next general election. (NRS 283.110) Existing law sets forth the events that cause a vacancy in office, including death and illness of a certain duration, but does not address the situation in which a state officer may be unable to perform the duties and functions of his office because of temporary incapacity. (NRS 283.040) This bill provides that if the Governor determines the State Controller or the State Treasurer suffers from illness or incapacity of indeterminate duration and that the illness or incapacity seriously interferes with or otherwise poses a critical and immediate danger to the financial operations of this State, the Governor may designate the Secretary of State or the Lieutenant Governor to perform the duties and functions of the State Controller or the State Treasurer, as applicable, for a limited period. This bill prohibits such a designation unless a physician licensed under the laws of this State examines the State Controller or the State Treasurer, as applicable, and certifies that the officer suffers from such illness or incapacity. This bill also authorizes the Office of the State Controller, in advance, to obtain and secure any necessary mechanical device that would be required by the Secretary of State or the Lieutenant Governor if designated to perform the duties and functions
