
SENATE BILL NO. 306—SENATOR WASHINGTON (BY REQUEST)

MARCH 19, 2007

Referred to Committee on Natural Resources

SUMMARY—Regulates the operation of a motorboat equipped with an engine cut-off switch. (BDR 43-81)

FISCAL NOTE: Effect on Local Government: Increases or Newly Provides for Term of Imprisonment in County or City Jail or Detention Facility.

Effect on the State: No.

~

EXPLANATION – Matter in ***bolded italics*** is new; matter between brackets [omitted material] is material to be omitted.

AN ACT relating to watercraft; prohibiting the operation of a motorboat that is equipped with an engine cut-off switch in excess of a certain rate of speed if the engine cut-off switch or engine cut-off switch link is missing, disconnected or not operating properly; prohibiting the operation of such a motorboat in excess of a certain rate of speed unless the engine cut-off switch link is attached to the body, clothing or personal flotation device of the operator; providing a penalty; and providing other matters properly relating thereto.

Legislative Counsel's Digest:

1 Existing law governs the operation of motorboats and other vessels on the
2 waters of this State. (Chapter 488 of NRS) Existing law also provides that any
3 person who violates any of the provisions of chapter 488 of NRS is guilty of a
4 misdemeanor. (NRS 488.950)

5 This bill establishes safety standards for the operation of motorboats that are
6 equipped with engine cut-off switches. An engine cut-off switch automatically
7 stops the engine of a motorboat if the operator of the motorboat becomes separated
8 from it. The engine cut-off switch is activated by a mechanical or wireless device
9 which serves as a link between the operator and the engine cut-off switch. This bill
10 prohibits a person who owns or controls a motorboat that is equipped with an
11 engine cut-off switch from operating or authorizing another person to operate the
12 motorboat at a rate of speed greater than 5 nautical miles per hour if the engine cut-
13 off switch or engine cut-off switch link is missing, disconnected or not operating
14 properly. This bill also prohibits any person from operating such a motorboat at a

* S B 3 0 6 R 1 *

15 rate of speed greater than 5 nautical miles per hour unless the engine cut-off switch
16 link is attached to his body, clothing or personal flotation device.

THE PEOPLE OF THE STATE OF NEVADA, REPRESENTED IN
SENATE AND ASSEMBLY, DO ENACT AS FOLLOWS:

1 **Section 1.** Chapter 488 of NRS is hereby amended by adding
2 thereto a new section to read as follows:

3 *1. A person who owns or controls a motorboat that is
4 equipped with an engine cut-off switch shall not operate or
5 authorize another person to operate the motorboat at a rate of
6 speed greater than 5 nautical miles per hour if the engine cut-off
7 switch or engine cut-off switch link is missing, disconnected or not
8 operating properly.*

9 *2. A person shall not operate a motorboat that is equipped
10 with an engine cut-off switch at a rate of speed greater than 5
11 nautical miles per hour unless the engine cut-off switch link is
12 attached to his body, clothing or personal flotation device.*

13 *3. As used in this section:*

14 *(a) "Engine cut-off switch" means a switch that automatically
15 stops the engine of a motorboat if activated by an engine cut-off
16 switch link.*

17 *(b) "Engine cut-off switch link" means a device that, if
18 attached to an operator, activates an engine cut-off switch if the
19 operator is separated from the motorboat. The term includes a
20 lanyard or other mechanical device and a wireless cut-off device.*

21 *(c) "Wireless cut-off device" means an engine cut-off switch
22 link that transmits an electromagnetic signal to an engine cut-off
23 switch.*
