AN ACT relating to criminal procedure; providing that evidence that is derived from the testimony or evidence of a witness who is granted immunity may be introduced in another proceeding if the evidence is obtained from an independent source; clarifying the duties of a witness to whom immunity is granted; and providing other matters properly relating thereto.

**Legislative Counsel's Digest:**

1 Existing law provides that an order of immunity provides what is commonly  
2 referred to as “transactional immunity” to a witness who is compelled to testify  
3 pursuant to the order such that the witness cannot be prosecuted for any offense  
4 revealed by his testimony except for perjury committed in giving the testimony.  
5 (NRS 178.574) **Section 2** of this bill revises the provisions relating to the  
6 prosecution of a witness who has been granted immunity to provide that an order of  
7 immunity only provides what is commonly referred to as “use or derivative use  
8 immunity.” Under this type of immunity, a witness is immune from the State using  
9 any of the witness’s testimony or other evidence obtained pursuant to the order of  
10 immunity in any future prosecution against the witness, unless the State is  
11 prosecuting the witness for perjury committed in giving the testimony or the person  
12 who offers evidence or testimony against the witness demonstrates that the  
13 evidence against the witness was obtained from an independent source. **Section 3**  
14 of this bill requires a witness to whom immunity is granted to testify or produce all

15 evidence compelled by the order of immunity regardless of whether the testimony  
16 or evidence may tend to incriminate the witness or subject him to a penalty or  
17 forfeiture. (NRS 178.576)
