AN ACT relating to water; providing for the regional acquisition,
development, management and conservation of water
resources in certain portions of Washoe County; creating
the Northern Nevada Water Authority; setting forth the
powers and duties of the Authority; creating the Northern
Nevada Water Planning Commission to advise and assist
the Authority; repealing provisions relating to regional
planning and management of water in certain counties;
and providing other matters properly relating thereto.

Legislative Counsel’s Digest:

Existing general law provides for regional planning and management of water
by a water planning commission in counties whose population is 100,000 or more
but less than 400,000 (currently Washoe County). Under that general law, a board
of county commissioners is required to adopt a comprehensive plan for the supply
of municipal and industrial water, quality of water, sanitary sewerage, treatment of
sewage, drainage of storm water and control of floods and is required to take action
by a two-thirds majority. This general law also provides for a water planning
commission, which reports to and advises the board of county commissioners
concerning issues relating to water resources. (NRS 540A.010-540A.310)

This bill repeals that general law and creates by special legislation a new
structure for regional planning and management of water resources in certain
portions of Washoe County based on the unique conditions and circumstances
existing in those areas. Under the Nevada Constitution, the Legislature may pass a
special or local law if the subject matter of the law does not fall within one of

* S B 4 8 7 *

certain enumerated categories and a general law cannot be made applicable because of special circumstances and conditions. (Nev. Const. Art. 4, §§ 20, 21) **Section 5** of this bill specifies the unique conditions and circumstances in these portions of Washoe County that justify special legislation for the purpose of regional planning and management of water resources.

Sections 23-28 of this bill create the Northern Nevada Water Authority, which is governed by a Board of Trustees consisting of representatives of Washoe County, the cities of Reno and Sparks and various public entities that provide services relating to water and wastewater in Washoe County. **Sections 37-42** of this bill create the Northern Nevada Water Planning Commission, which reports to and advises the Board of Trustees of the Authority.

Sections 35-53 of this bill require the development and adoption of a comprehensive plan for the area over which the Authority has jurisdiction, which must address the supply of municipal and industrial water, quality of water, sanitary sewerage, treatment of sewage, drainage of storm water and control of floods. **Sections 29-36 and 54-57** of this bill authorize the Board of Trustees to: (1) subject to certain exceptions, acquire and dispose of, in any manner, water rights, water supplies and related facilities; (2) schedule the delivery of water resources held by certain water purveyors before January 1, 2008; (3) establish service territories of those purveyors for new water service provided on and after January 1, 2008; (4) establish, charge and collect various fees for services relating to the provision of water; (5) provide for water conservation by various means; (6) exercise the power of eminent domain as necessary; and (7) issue bonds and other obligations.

Section 61 of this bill creates a temporary statutory legislative committee to oversee the programs and activities of the Authority.

THE PEOPLE OF THE STATE OF NEVADA, REPRESENTED IN
SENATE AND ASSEMBLY, DO ENACT AS FOLLOWS:

(a) The sale or lease of the water right is consistent with the prudent, long-term management of the water resources within the jurisdiction of the public body;

(b) The sale or lease of the water right will not deprive residents and businesses within the jurisdiction of the public body of reasonable access to water resources for growth and development;

18 January 1, 2008.

19 **Sec. 33.** The Board has and may exercise all rights and powers
20 necessary or incidental to or implied from the specific powers
21 granted in this Act. Such specific powers are not a limitation upon
22 any power necessary or appropriate to carry out the purposes and

31 River Operating Agreement must be considered as acquired before
32 January 1, 2008, and must be managed, scheduled and operated in
33 accordance with that Agreement. Nothing in this Act alters the
34 rights and obligations of the Water Quality Settlement Agreement,
35 and all water supplies must be managed, scheduled and operated in
