AN ACT relating to eminent domain; revising the provisions pertaining to the deposit of money with a court in an action in eminent domain; revising the provisions pertaining to the date of valuation of property in an action in eminent domain; and providing other matters properly relating thereto.

Legislative Counsel's Digest:

Existing law provides that when money is deposited in any court and payment is not required for 90 days or more, the money may be commingled with other deposits and invested, and the interest earned is deposited with the general fund of the political subdivision or municipality which supports the court. (NRS 355.210) ~~This~~ Section 1 of this bill provides that when money is deposited in an action in eminent domain, the money must be deposited in a separate account and the owner of the property is entitled to some or all of the interest earned, depending upon the amount of compensation awarded to the owner as compared to the amount of money deposited.

~~Existing law provides that the date of valuation of property in an action in eminent domain is the date of the first service of summons. However, if the action is not tried within 2 years after that date and the delay is caused primarily by the plaintiff or congestion in the court calendar, the date of valuation is the date of the commencement of the trial. (NRS 37.120) Section 1.5 of this bill requires the property owner to select as the date of valuation of the property the date the complaint is filed, the date of the commencement of the trial or the date of the commencement of a retrial.~~
