EXPLANATION – Matter in ***bolded italics*** is new; matter between brackets **[omitted material]** is material to be omitted.

AN ACT relating to public works; exempting contracts for certain projects within redevelopment areas from procedures for competitive bidding; and providing other matters properly relating thereto.

Legislative Counsel's Digest:

Existing law requires that contracts for public works projects be awarded through procedures for competitive bidding. (NRS 338.1373-338.148) Existing law authorizes public bodies to redevelop blighted areas. (Chapter 279 of NRS) This bill exempts contracts for certain **public improvement** projects from procedures for competitive bidding. The projects exempted are those: (1) **[that are] constructed** within a redevelopment area **[by a private developer for the benefit of a private development that consists of one or more buildings for which the estimated cost is \$20 million or more]**; (2) that a legislative body has determined, at a public hearing, **directly** benefit a redevelopment area **[to] promote efficiency, coordination and economy in design and construction and** mitigate any adverse effect upon the redevelopment area that is caused by **[a redevelopment project]** **the private development;** (3) which would otherwise be considered public works; and (4) for which the developer will receive a monetary contribution or refund from a public body as reimbursement for a portion of the costs of the project. This bill also provides that such contracts are subject to the prevailing wage requirements of chapter 338 of NRS. **[If the contract does not make the developer responsible for paying all of the initial construction costs of the project.]**
