S.B. No. 306—Regulates the operation of a motorboat equipped with an engine cut-off switch. (BDR 43-81)

## SENATE BILL NO. 306—SENATOR WASHINGTON (BY REQUEST)

MARCH 19, 2007

---

Referred to Committee on Natural Resources

**SUMMARY**—Regulates the operation of a motorboat equipped with an engine cut-off switch. (BDR 43-81)

**FISCAL NOTE:** Effect on Local Government: Increases or Newly Provides for Term of Imprisonment in County or City Jail or Detention Facility.

Effect on the State: No.

~

EXPLANATION – Matter in ***bolded italics*** is new; matter between brackets [omitted material] is material to be omitted.

---

---

AN ACT relating to watercraft; prohibiting the operation of a motorboat that is equipped with an engine cut-off switch **in excess of a certain rate of speed** if the engine cut-off switch or engine cut-off switch link is missing, disconnected or not operating properly; prohibiting the operation of such a motorboat **in excess of a certain rate of speed** unless the engine cut-off switch link is attached to the body, clothing or personal flotation device of the operator; providing a penalty; and providing other matters properly relating thereto.

1      **Legislative Counsel's Digest:**

2      Existing law governs the operation of motorboats and other vessels on the waters of this  
3      State. (Chapter 488 of NRS) Existing law also provides that any person who violates any of  
4      the provisions of chapter 488 of NRS is guilty of a misdemeanor. (NRS 488.950)

5      This bill establishes safety standards for the operation of motorboats that are equipped  
6      with engine cut-off switches. An engine cut-off switch automatically stops the engine of a  
7      motorboat if the operator of the motorboat becomes separated from it. The engine cut-off  
8      switch is activated by a mechanical or wireless device which serves as a link between the  
9      operator and the engine cut-off switch. This bill prohibits a person who owns or controls a  
10     motorboat that is equipped with an engine cut-off switch from operating or authorizing  
11     another person to operate the motorboat **at a rate of speed greater than 5 nautical miles per**  
12     **hour** if the engine cut-off switch or engine cut-off switch link is missing, disconnected or not  
13     operating properly. This bill also prohibits any person from operating such a motorboat **at a**  
14     **rate of speed greater than 5 nautical miles per hour** unless the engine cut-off switch link is  
   attached to his body, clothing or personal flotation device.

---

---

THE PEOPLE OF THE STATE OF NEVADA, REPRESENTED IN  
SENATE AND ASSEMBLY, DO ENACT AS FOLLOWS:

1       **Section 1.** Chapter 488 of NRS is hereby amended by adding thereto a new  
2 section to read as follows:

3       ***1. A person who owns or controls a motorboat that is equipped with an  
4 engine cut-off switch shall not operate or authorize another person to operate the  
5 motorboat at a rate of speed greater than 5 nautical miles per hour if the engine  
6 cut-off switch or engine cut-off switch link is missing, disconnected or not  
7 operating properly.***

8       ***2. A person shall not operate a motorboat that is equipped with an engine  
9 cut-off switch at a rate of speed greater than 5 nautical miles per hour unless the  
10 engine cut-off switch link is attached to his body, clothing or personal flotation  
11 device.***

12       ***3. As used in this section:***

13       ***(a) "Engine cut-off switch" means a switch that automatically stops the  
14 engine of a motorboat if activated by an engine cut-off switch link.***

15       ***(b) "Engine cut-off switch link" means a device that, if attached to an  
16 operator, activates an engine cut-off switch if the operator is separated from the  
17 motorboat. The term includes a lanyard or other mechanical device and a  
18 wireless cut-off device.***

19       ***(c) "Wireless cut-off device" means an engine cut-off switch link that  
20 transmits an electromagnetic signal to an engine cut-off switch.***
