AN ACT relating to subsurface installations; revising provisions relating to the notification required before beginning an excavation or demolition under certain circumstances; revising provisions governing certain complaints relating to the conduct of an excavation or demolition; and providing other matters properly relating thereto.

**Legislative Counsel's Digest:**

1      **Section 1** of this bill amends the definition of “approximate location of a subsurface  
2      installation” to mean a strip of land not more than 24 inches on either side of the exterior  
3      surface of a subsurface installation, instead of 30 inches as defined by existing law.  
4      (NRS 455.082)

5      **[Section 2 of this bill amends the definition of “subsurface installation” to include a  
6      service lateral. (NRS 455.101)]**

7      Existing law requires a person to give notice to the appropriate association of operators of  
8      an excavation or demolition at least 2 working days, but not more than 14 calendar days,  
9      before the excavation or demolition. (NRS 455.110) **Section 3** of this bill extends the time  
10     frame to not more than 28 calendar days before the excavation or demolition.

11     Existing law authorizes certain persons to file a complaint to enjoin certain activities or  
12     practices of an operator or a person who is about to conduct an excavation or demolition and  
13     authorizes the court to issue a temporary restraining order under certain circumstances. (NRS  
14     455.160) **Section 4** of this bill adds the Regulatory Operations Staff of the Public Utilities  
15     Commission of Nevada, the Attorney General, an operator or a person conducting an  
16     excavation or demolition to the list of persons authorized to file a complaint. **Section 4** also
