Legislative Counsel's Digest:

1 **Section 1** of this bill amends the definition of “approximate location of a subsurface
2 installation” to mean a strip of land not more than 24 inches on either side of the exterior
3 surface of a subsurface installation, instead of 30 inches as defined by existing law. (NRS
4 455.082) **Section 7 of this bill delays the effective date of the change until July 1, 2008.**
5 **Section 6 of this bill requires the Public Utilities Commission of Nevada to report to the**
6 **Legislative Commission before the next regular session of the Legislature concerning the**
7 **effects of the change.**

8 Existing law requires a person to give notice to the appropriate association of operators of
9 an excavation or demolition at least 2 working days, but not more than 14 calendar days,
10 before the excavation or demolition. (NRS 455.110) **Section 3** of this bill extends the time
11 frame to not more than 28 calendar days before the excavation or demolition.

12 Existing law authorizes certain persons to file a complaint to enjoin certain activities or
13 practices of an operator or a person who is about to conduct an excavation or demolition and
14 authorizes the court to issue a temporary restraining order under certain circumstances. (NRS
15 455.160) **Section 4** of this bill adds the Regulatory Operations Staff of the Public Utilities
16 Commission of Nevada, the Attorney General, an operator or a person conducting an
17 excavation or demolition to the list of persons authorized to file a complaint. **[Section 4 also**
18 **removes the authorization of a court to issue a temporary restraining order.]**
