AN ACT relating to water; providing for the regional acquisition, development, management and conservation of water resources in certain portions of Washoe County; creating the Northern Nevada Water Authority; setting forth the powers and duties of the Authority; creating the Northern Nevada Water Planning Commission to advise and assist the Authority; repealing provisions relating to regional planning and management of water in certain counties; and providing other matters properly relating thereto.

**Legislative Counsel's Digest:**

Existing general law provides for regional planning and management of water by a water planning commission in counties whose population is 100,000 or more but less than 400,000 (currently Washoe County). Under that general law, a board of county commissioners is required to adopt a comprehensive plan for the supply of municipal and industrial water, quality of water, sanitary sewerage, treatment of sewage, drainage of storm water and control of floods and is required to take action by a two-thirds majority. This general law also provides for a water planning commission, which reports to and advises the board of county commissioners concerning issues relating to water resources. (NRS 540A.010-540A.310)

This bill repeals that general law and creates by special legislation a new structure for regional planning and management of water resources in certain portions of Washoe County based on the unique conditions and circumstances existing in those areas. Under the Nevada Constitution, the Legislature may pass a special or local law if the subject matter of the law does not fall within one of certain enumerated categories and a general law cannot be made applicable because of special circumstances and conditions. (Nev. Const. Art. 4, §§ 20, 21) **Section 5** of this bill specifies the unique conditions and circumstances in these portions of Washoe County that justify special legislation for the purpose of regional planning and management of water resources.

**Sections 23 and 24-28** of this bill create the Northern Nevada Water Authority, which is governed by a Board of Trustees consisting of representatives of Washoe County, the cities of Reno and Sparks and various public entities that provide services relating to water and

wastewater in Washoe County. **Sections 37-42** of this bill create the Northern Nevada Water Planning Commission, which reports to and advises the Board of Trustees of the Authority.

In lieu of creating the Northern Nevada Water Authority pursuant to **section 23** of this bill, **section 23.5** of this bill authorizes the City of Reno, City of Sparks, Washoe County, Sun Valley General Improvement District and Truckee Meadows Water Authority to create the Northern Nevada Water Authority by cooperative agreement. The cooperative agreement must be entered into and become effective before January 1, 2008.

**Sections 35-53** of this bill require the development and adoption of a comprehensive plan for the area over which the Authority has jurisdiction, which must address the supply of municipal and industrial water, quality of water, sanitary sewerage, treatment of sewage, drainage of storm water and control of floods. **Sections 29-36 and 54-57** of this bill authorize the Board of Trustees to: (1) subject to certain exceptions, acquire and dispose of, in any manner, water rights, water supplies and related facilities; (2) schedule the delivery of water supplies held by certain water purveyors before January 1, 2008; (3) establish service territories of those purveyors for new water service provided on and after January 1, 2008; (4) establish, charge and collect various fees for services relating to the provision of water supplies; (5) provide for water conservation by various means; (6) subject to certain exceptions, exercise the power of eminent domain as necessary to acquire private property; and (7) issue bonds and other obligations.

**Section 61** of this bill creates a temporary statutory legislative committee to oversee the programs and activities of the Authority.

2. Fix the rates or rules of a public purveyor for the delivery of water by the public purveyor, acquire, without the consent of the public purveyor, ownership of any water supplies, water rights, facilities or other assets of a public purveyor, or take any action which will impair any bond obligations of a public purveyor existing before January 1, 2008.

3. Provide wholesale water services to a public purveyor if:

(a) Wholesale water services are already provided by a public purveyor; or
