AN ACT relating to public welfare; requiring the Director of the Department of Health and Human Services to include in the State Plan for Medicaid a requirement that certain children with disabilities are eligible for Medicaid; **requiring the Department to investigate the feasibility of establishing a program to verify the provider of primary insurance for recipients of Medicaid and insurance through the Children's Health Insurance Program;** and providing other matters properly relating thereto.

**Legislative Counsel's Digest:**

Existing federal law authorizes a state to provide Medicaid coverage to certain children with disabilities: (1) who are under 19 years of age; (2) who would be eligible for supplemental security income disability benefits except for their income or resources; and (3) whose family income does not exceed a certain income level established by the state. (42 U.S.C. § 1396a(a)(10)(A)(ii)(XIX), 42 U.S.C. § 1396a(cc)(1)) Existing federal law further provides that the Federal Government will provide matching federal funds for such Medicaid coverage to those children with disabilities whose family income does not exceed 300 percent of the federal poverty line as is applicable to that size of family. ~~However, federal law also provides that the Federal Government may not provide federal matching funds for such Medicaid coverage to those children with disabilities whose family income exceeds that income limit of 300 percent of the federal poverty line.] (42 U.S.C. § 1396a(cc)(1) )~~ [42 U.S.C. § 1397jj(e)(5)]

Section **¶ 2** of this bill requires the Director of the Department of Health and Human Services to amend the State Plan for Medicaid to provide, within the limitations of available funding, Medicaid coverage to a child with a disability who satisfies the Medicaid eligibility requirements set forth in federal law and whose family income does not exceed the ~~greater of (1) the~~ income level set forth in federal law ~~. If~~ or (2) 400 percent of the federal poverty line as is applicable to that size of family. Because existing federal law prohibits federal funds from being used to provide Medicaid coverage to a child whose family income is greater than 200 percent of the federal poverty line, Medicaid coverage for any child with a disability in this State whose family income falls between 300 and 400 percent of the federal poverty line must be provided solely with state funds.] (42 U.S.C. § 1396a(cc)(1)) Section **¶ 2** further requires the Director, in a manner consistent with federal law, to charge a premium for such Medicaid coverage to the family of a child with a disability unless the Director waives the premium.

26       Section 3 of this bill requires the Department to investigate the feasibility of  
27 establishing a program to verify the primary insurance provider of recipients of  
28 Medicaid and insurance through the Children's Health Insurance Program. Section 3  
29 also authorizes the Department to contract with a qualified and independent consultant  
30 to conduct the investigation. If the Department determines it is feasible, the Department  
31 shall adopt regulations to establish such a program.
