AN ACT relating to state obligations; requiring the State Treasurer to review and the State Board of Finance to approve certain state financial obligations before the obligations are issued or incurred; and providing other matters properly relating thereto.

Legislative Counsel's Digest:

1 Existing law authorizes the State to borrow money or otherwise become
2 obligated and to issue state securities or other evidence of the obligations, subject to
3 various requirements. (NRS 349.150-349.364) This bill requires the State Treasurer
4 to review and the State Board of Finance to approve certain state financial
5 obligations before the obligations may be issued or incurred. The review is required
6 of certain obligations which require future state payments in an amount of
7 \$5,000,000 or more after the then-current budget biennium and which are not
8 otherwise subject to review or exempt from review pursuant to statute. If the
9 issuance or incurrence of an obligation is approved by the State Board of Finance,
10 the State Treasurer is responsible for administering the issuance or incurrence of
11 the obligation. This bill also allows the State Treasurer to exempt such obligations
12 from review.
