

CHAPTER.....

AN ACT relating to education; requiring the Department of Education to adopt a model which measures the achievement of pupils from year to year; revising provisions governing the alternative criteria for receipt of a high school diploma; and providing other matters properly relating thereto.

Legislative Counsel's Digest:

Existing law requires the administration of criterion-referenced examinations to pupils enrolled in grades 3 through 8. (NRS 389.550) The examinations measure the achievement of pupils based upon the State's academic standards. The results of the examinations are reported in the annual accountability reports and the summaries of the accountability reports prepared by the State Board of Education, the boards of trustees of school districts and individual schools. (NRS 385.3469, 385.34692, 385.347, 385.349, 385.358) **Section 1** of this bill requires the Department of Education to adopt a model to measure the achievement of pupils so that the progress of pupils enrolled in a public school may be tracked from year to year to determine whether the public school has made progress. **Sections 3-5** of this bill require that the information concerning the progress of public schools in the achievement of pupils be reported in the yearly accountability reports.

To receive a standard high school diploma, existing law requires a pupil to either pass the high school proficiency examination or satisfy an alternative set of requirements. **Section 6** of this bill reduces the number of times a pupil must have failed the high school proficiency exam to be eligible to proceed under the alternative set of requirements from 3 times to 2 times.
