AN ACT relating to county fire departments; requiring a board of county commissioners that creates a district for a fire department to adopt an ordinance requiring the imposition and collection of fees for the transportation of sick or injured persons by the department to a medical facility; mandating that such an ordinance in a county whose population is 400,000 or more limit the number of such transports by the department; requiring a board of county commissioners in a county whose population is 400,000 or more to submit a quarterly report to the Legislature and the Legislative Committee on Health Care of various information relating to the transport of sick and injured persons to medical facilities; and providing other matters properly relating thereto.

**Legislative Counsel's Digest:**

Existing law requires the board of county commissioners, in a county where a district for a fire department has been created and where the fire department transports sick or injured persons to a medical facility, to adopt an ordinance that either: (1) requires the fire department to impose and collect fees to defray the expenses of furnishing such transportation; or (2) prohibits the imposition and collection of such fees. (NRS 244.2961) **Section 1** of this bill repeals the option of adopting an ordinance prohibiting the imposition and collection of such fees, except in counties for which a nonprofit corporation has been granted an exclusive franchise to provide ambulance service. **Section 1** also requires that, in a county whose population is 400,000 or more (currently Clark County), such an ordinance limit the number of transports the fire department may make annually to not more

12 than 1,000 transports, with an exception for emergency situations in which a private  
13 ambulance is not available. **Section 2** of this bill, with respect to a county that has  
14 already adopted an ordinance prohibiting the imposition and collection of such fees,  
15 allows the county until January 1, 2010, to amend or repeal that ordinance. **Section**  
16 **3** of this bill requires the board of county commissioners of a county whose  
17 population is 400,000 or more to submit a quarterly report to the Legislature and  
18 the Legislative Committee on Health Care regarding the number of yearly  
19 transports made by the fire department and all ambulance companies. The report  
20 must include, without limitation, the fees charged for those transports, whether or  
21 not the persons transported had health insurance and what medical facilities the  
22 persons were transported to and from.
